

**Software & Solution Architect |**  
**Principal Engineer | AI/ML Innovator | Technical Strategist |**  
**Full Stack Expert | UI/UX Specialist | Cloud-Native & API Platform**

## PROFESSIONAL SNAPSHOT

Seasoned Software Architect with 17+ years of experience designing and delivering scalable, secure, and enterprise-grade solutions across SaaS, Web2/Web3, and cloud platforms. Adept at bridging business priorities with technical execution, consistently driving accelerated delivery, cost savings, and client satisfaction. Experienced in full SDLC governance and architecting AI-driven platforms using RAG, ML, and predictive analytics to enhance efficiency and innovation.

Proficient in enterprise architecture, API platform design, and cloud-native SaaS development. Skilled in diverse architecture styles including Microservices, SOA, Event-Driven, and API-first, with hands-on expertise in full-stack ecosystems (JavaScript, Node.js, Angular, React, Go, PHP, Python, SQL/NoSQL). Experienced in CI/CD automation, containerization, Kubernetes orchestration, and AI/ML integration to build intelligent, data-driven systems.

Known for balancing system-wide trade-offs and embedding governance frameworks across the SDLC. Skilled at translating industry value chains into digital solution clusters, modernizing legacy applications, and architecting resilient, high-performance platforms. Strong collaborator with product leaders and stakeholders, aligning technical roadmaps with business outcomes.

Recognized for reviving critical projects, delivering innovative automation tools, and simplifying operations through rapid technology adoption. Trusted for designing secure, scalable architectures that meet non-functional requirements while enabling digital transformation. Awarded for innovative solutions, including a \$1M effort-saving initiative.

- Architected large-scale API platforms with unified gateways, enhancing scalability and security.
- Built RAG-based AI assistants and automation tools, reducing costs by 15% and saving thousands of man-hours.
- Modernized legacy systems into resilient platforms, ensuring 99.99% uptime and mitigating advanced cyberattacks.
- Established SDLC governance frameworks, improving delivery predictability by 30%.
- Optimized CI/CD pipelines and cloud infrastructure, cutting deployment time by 40%.
- Partnered with enterprise clients to align solutions with business priorities, securing repeat contracts worth millions.

## CORE COMPETENCIES

Full-Stack Development | Smart Tool Development | Process Automation | Project Management | Project Delivery | Agile Methodologies (Scrum & Kanban) | Enterprise Architecture | Quality Assurance | Innovation & Problem Solving | Communication & Inter-personal Skills | Cross-functional Collaboration | Stakeholder Management | Team Building & Leadership | Documentation & Presentation Skills | Prompt Engineer

## TECHNICAL COMPETENCIES

- **Programming Languages:**
  - **Primary:** JavaScript, Node.js, TypeScript, HTML5, CSS, Bash, XML, JSON
  - **Secondary:** Python, Go, PHP, PowerShell, Android, Rust, Deno, Dart, ActionScript, VBA, SASS, LESS, C#.net, Java, C/C++
- **Frameworks and Libraries:** Web Assembly, Angular, PWA, RAG, jQuery, React, Pandas, NumPy, Matplotlib, Scikit, LangChain, Puppeteer, Lit, WebRTC, Svelte, Jest, Ava, Next, Nest, Hono, Fastify, Express, GraphQL, .NET Core, PhoneGap, Cordova, Backbone, Bootstrap, Material Design, Mustache, Handlebars, i18next, Flask, Flight, Custom Element, Flex, Flash, AIR
- **DBMS:** MySQL, PostgreSQL, MSSQL, SQLite, NoSQL, MongoDB, MeiliSearch, Redis, Prometheus, TDengine, Materialize, Pinecone
- **Protocols:** HTTPS, SSH, FTP, UpNP (for IoT), RTMP (for media transmission), MCP, A2A
- **Operating Systems:** Windows, macOS, Linux, Android, iOS; VDI, VM, Remote Desktop, Virtual Box
- **PM Tools:** JIRA, Confluence, Crucible, Trello, SharePoint, Office365 Suite, G Suite, Zendesk, Excel, PlantUML, Powerpoint, PowerBI
- **SCM/VC Tools:** Git, SVN, SourceTree, GitHub, Bitbucket, GitLab, Azure
- **Cloud:** AWS, Azure, GCP
- **Cloud Services:** Familiar with SaaS, PaaS, IaaS and deployment strategy in cloud, hybrid, on-premises
- **Automation:- Test:** Robot Framework, Selenium; **Task:** Grunt, Gulp; **Bundler:** Webpack, Parcel; **Build:** Gradle, Ant, Maven
- **DevOps:** Jenkins, Docker, Kubernetes; Kafka, Minio, ELK, Grafana, Puppet
- **Software Architecture:** OOAD, SOA, Microservices, Technical Architecture, Technical Solution Design
- **Software Design:** UI/UX, Graphic Design, Web Design
- **Software Development:** Cross-platform Development (Android, iOS), Front-end Development (Web), Backend Development (APIs), Cloud Development
- **Software Engineering:** SDLC, Build Automation, DevOps CI/CD
- **Software Testing:** Scalability, High Availability, Performance Management
- **Software Maintenance:** Disaster Recovery, Mitigation Planning

## CORPORATE SUCCESS

### Nov'24 – Sep'25: Kalp Digital Infra Pvt. Ltd., Noida as Engineering Manager

At Kalp Digital Infra, I lead and mentor a high-performing engineering team, architect and design innovative blockchain-powered Web2 & Web3 solutions, and oversee end-to-end development and deployment, driving technological excellence and transformative business growth.

#### Key Achievements

- Delivered mission-critical backend platforms with 200+ API endpoints in one-third of the projected timeline.
- Built a customizable RAG-based AI assistant with multi-source knowledge integration, reducing operational costs by 15%.
- Transformed legacy applications into secure, resilient systems, repelling advanced cyberattacks and ensuring 99.99% uptime.
- Partnered with enterprise clients to deliver scalable solutions, achieving 95%+ satisfaction and strengthening long-term relationships.
- Aligned engineering roadmaps with business priorities, enabling cross-functional delivery and securing repeat contracts worth ₹3 million.
- Optimized CI/CD pipelines and cloud infrastructure, cutting deployment time by 40% and improving release reliability.

### Aug'22 – Sep'23: NetApp India Pvt. Ltd., Bangalore as Software Architect (MTS SE 5)

At NetApp India R&D, I lead the architecture, design, development, and implementation of cutting-edge web applications and scalable cloud-based SaaS solutions, driving innovation and enhancing product performance.

#### Key Achievements

- Revived legacy project by resolving critical issues, aligning with industry standards, saving 1 year of team effort.
- Evaluated MVPs and selected UI, tech stack, databases, and frameworks, shaping core project modules.
- Built large-scale API platform integrating APIs via unified gateway with common authentication, enhancing scalability & security.
- Designed and implemented end-to-end architecture for complex multi-tier enterprise web and desktop applications.
- Led architecture and product design for critical projects, optimizing system-wide trade-offs and boosting performance by 35%.
- Provided technical leadership to engineering team on critical projects, ensuring alignment and timely delivery.

### May'21 – Aug'22: Bajaj Finserv Ltd., Pune as Deputy National Lead (E08)

As a Project Manager, I spearheaded a dynamic team of 25+ professionals across leadership, development, QA, and support, successfully delivering 4 major projects and multiple concurrent initiatives. I ensured 24x7 system uptime by proactively diagnosing and resolving critical technical challenges, while continuously driving process innovation to enhance efficiency and performance.

#### Key Achievements

- Established project governance, sprint planning & QA processes, boosting efficiency and deliverable quality.
- Deployed auto-scaling, disaster-resilient environments, improving system reliability and availability.
- Developed monitoring tools for core and dependent components, preventing downtime and ensuring optimal performance.
- Led team growth (3 to 25), improved collaboration & morale, and shaped enterprise architecture to enhance performance & project vision.

### Jan'16 – May'21: HCL Technologies Ltd., Noida as Senior Technical Lead

As Senior Technical Lead, I drove technical excellence across 4 major projects for top clients, leading a team of 15 engineers while fulfilling roles as Lead, Consultant, Architect, and Scrum/Kanban Master to deliver innovative solutions that consistently exceeded expectations.

#### Key Achievements

- Enhanced internal systems by eliminating unnecessary procedures, improving quality, and saving 24 hours per month
- Automated content management process, allowing online content submission and saving 4 hours per week of manual data entry
- Invented Universal GUI to provide graphical interface to command-line apps, improving UX and streamlining complicated tasks
- Received best innovation certificate and award for saving \$1 million worth of effort by providing & implementing value idea
- Led Robot Framework training, built Scrum performance engine, & enhanced enterprise architecture to improve testing, reporting, design.

## EARLY CAREER

- **Agnity India Technology Pvt. Ltd.**, Noida, U.P., India | Engineering Lead | May'14 – Jan'16
- **Intigate Technologies Pvt. Ltd.**, Noida, U.P., India | Tech Architect/Project Manager | Oct'13 – May'14
- **IOMEDIA Inc.**, Gurgaon, Haryana, India | Team Lead | Jul'13 – Oct'13
- **Mobilous Inc.**, Gurgaon, Haryana, India | Senior Software Engineer | Sep'11 – Jul'13
- **NIIT Ltd.**, New Delhi, India | Software Engineer | Mar'10 – Aug'11
- **Geine Technologies India Pvt. Ltd.**, Gurgaon, Haryana, India | System Engineer | Oct'09 – Mar'10
- **G-Cube Solutions Pvt. Ltd.**, Noida, U.P., India | Software Engineer | Nov'06 – Sep'09

## ACADEMICS & CREDENTIALS

- **Certificate Programme in Machine Learning & Deep Learning**, Indian Institute of Technology (IIT) Delhi | New Delhi | 2024 | 82.7%
- **B.Tech. (Computer Science & Engineering)**, Academy of Business & Engineering Science (ABES), Ghaziabad | 2006 | 64.7%
- **HSC (Science)**, Hindalco Vidya Niketan (HVN) | 2002 | 64.2%

## REWARDS & RECOGNITIONS

- Won **"Innovation Award"** for the year 2016-17
- Won **"Top Trainer Award (JavaScript)"** for the Year 2017-18
- Won **"Best Project Award"** for the year 2017-18
- Won **"Top Trainer Award (Node.js)"** for the year 2019-20

## TRAININGS & CERTIFICATIONS

- **Twilio Platform Certified** | 2019
- **Certified Trainer (Node.js)** | 2020
- **Generative AI** | 2023
- **AWS Certified Cloud Practitioner: Cert Prep Course** | 2023
- **Microsoft Azure Fundamentals (AZ-900): Cert Prep Course** | 2023
- **Google Cloud Digital Leader: Cert Prep Course** | 2023
