Skills

PROGRAMMING LANGUAGES & FRAMEWORKS: HTML, CSS, JavaScript, React Js, Axios, Redux Toolkit, Express.js, MongoDB

TOOLS & TECHNOLOGIES: VS Code, Git, GitHub, Vite

STYLING & UI LIBRARIES: Tailwind CSS, Responsive Design (Media Queries, Flexbox, Grid)

Projects

FILMFOLIO — MOVIE DISCOVERY PLATFORM - film-folio-pi.vercel.app

- Built a media exploration platform with real-time search, infinite scroll, and trailer streaming.
- Integrated TMDb API and implemented global state handling using Redux Toolkit.
- Developed responsive card layouts and interactive UI elements with seamless transitions.

Tech Stack: React, Redux Toolkit, Axios, React Router, Swiper, React Player, Infinite Scroll

PINGME — REAL-TIME CHAT INTERFACE - pingmechat.vercel.app

- Developed a chat interface supporting live messaging, media sharing, and authentication flow.
- Managed UI state with Redux Toolkit and implemented theme switching for better UX.
- Built responsive layouts and chat components using Tailwind CSS.

Tech Stack: React, Redux Toolkit, TailwindCSS, Socket.IO, JWT, Cloudinary, Vite, Express.js, MongoDB

MAIL GENIUS — EMAIL AUTOMATION - appmail.prashantsaini.in

- Developed an email creation and scheduling interface with rich-text editor support.
- Integrated Jodit editor for formatted messaging and implemented secure login flow.
- Built responsive dashboard UI and streamlined backend communication workflow.

Tech Stack: React, Redux Toolkit, Jodit, Tailwind CSS, JWT, API Integration

PERFECT MOMENT PHOTOGRAPHY WEBSITE - perfectmomentsphotography.in

- Designed and developed a visual-first photography website emphasizing motion and smooth browsing.
- Implemented responsive layouts, scroll-based animations, and optimized asset loading.
- Leveraged GSAP for modern animation effects and enhanced user interaction.

Tech Stack: HTML, CSS, JavaScript, GSAP

NICCOLO MIRANDA — THE PAPER PORTFOLIO - mrgreat-0.github.io/Practice-Website-09

- Recreated a premium landing page inspired by Niccolo Miranda's website, showcasing modern UI patterns.
- Implemented animation triggers, text-layer effects, and dynamic scrolling elements.
- Focused on responsive design, interaction design, and pixel-precision layouts.

Tech Stack: HTML, CSS, JavaScript, GSAP
