Summary

VAPT and Application Security professional with 4+ years of experience in web application penetration testing, network penetration testing, vulnerability assessments, and security operations.

Work Experience

Cybersecurity Specialist @ Aguna

Jan 2025 – Present

- Conducted penetration testing on web applications. Identified critical security flaws in client applications.
- Performed Network vulnerability assessments using tools such as Nessus, Nmap.
- Prepared detailed VAPT reports including risk ratings, proof-of-concept and remediation.
- Led VAPT and SOC projects, supporting juniors during investigations and escalations.
- Designed network & security architecture diagrams for client implementations.

Cybersecurity Analyst @ Alphatec

July 2023 – Dec 2024

- Performed VAPT for web applications, APIs, internal networks, and external infrastructure.
- Participated in client discussions to define scope, rules of engagement, and testing methodologies.
- Led the transition of a hardware-based AI security solution to a Docker-based containerized deployment, supporting early customer adoption. Conducted POCs for potential clients.
- Suggested product and usability improvements that reduced client confusion and improved adoption.

Penetration Tester @ Krishna Automation

July 2022 – June 2023

- Engaged with clients to define scope of work (SoW) for application security assessments.
- Performed web application and network penetration tests.
- Documented vulnerabilities, risk ratings, and remediation recommendations in formal reports.

Certifications (Technical + Management)

- CISSP(in-progress)
- Certified Ethical Hacker(CEH)
- Leadership Funnel - Global Academy

Skills

Offensive Security: Web Application Pen Testing, Network Vulnerability Assessment, API security testing, OWASP Top 10

Defensive Security: SOC, SIEM Monitoring & Tuning, Incident Management, Malware Analysis, Sandboxing, Security Architecture

Tools: Burp Suite, Nmap, Nessus, OWASP ZAP, Metasploit, Wireshark, SIEM, Linux, Sandboxes, VirusTotal

Soft Skills: Client Communication, Stakeholder Management, Report Writing, Technical Documentation, Project Management, Product Management, Team Collaboration

Education

B.Tech (Information Technology)

Bharatiya Vidyapeeth College of Engineering

Score = 75%
