CFA Level III Candidate | MBA Finance, IIM Indore | 52 Months Buy-Side & Quant Risk Experience

PROFESSIONAL SUMMARY

Investment Risk Associate at JP Morgan Asset & Wealth Management with direct exposure to a \$640B AUM multi-asset book. Deep expertise in quantitative portfolio analytics, factor risk decomposition, Python-driven automation, and stress testing across equity, fixed income, and multi-asset strategies. CFA Level I cleared at the 90th percentile; Level II cleared (Level III candidate). IIM Indore MBA, top 2% in Finance. Seeking buy-side investment risk, quant research, or portfolio analytics roles where rigorous quantitative skills and institutional markets experience can drive alpha generation and risk-adjusted performance.

PROFESSIONAL EXPERIENCE

JP Morgan Asset & Wealth Management | Investment Risk Associate May 2023 – Present

- Owned daily quantitative risk reporting across CIO-managed portfolios (~**\$640B AUM**); decomposed **factor exposures** (value, momentum, quality, duration) to surface concentration risk and support intraday rebalancing decisions by senior PMs
- Rebuilt equity, fixed income, and multi-asset analytics stack in Python (Pandas, NumPy) — automated **tracking error, information ratio**, and excess return attribution pipelines, reducing turnaround from **4+ hours to under 30 minutes** and enabling same-day portfolio adjustments
- Conducted quantitative due diligence on prospective investment solutions: built **VaR models**, drawdown scenario matrices, and **tail-risk simulations** to evaluate suitability against client risk mandates and regulatory constraints
- Back-tested factor strategies and scenario-modelled macro shocks (rate hikes, credit spread widening, equity drawdowns) alongside senior PMs, directly informing systematic capital allocation decisions
- Identified concentrated factor tilts across sector allocations during volatile macro periods; escalated tail-risk flags that contributed to pre-emptive defensive repositioning in client portfolios

Ford Motor Company | Product Manager – Financial Strategy May 2022 – Apr 2023

- Managed a product line generating ~**₹30M monthly revenue**; led data-driven pricing model redesign and scenario analysis to guide capital allocation, achieving **15% YoY growth** and measurable churn reduction
- Collaborated with Finance and Sales to align P&L roadmap with profitability targets; translated market data into actionable pricing strategy and cross-segment expansion initiatives

WI Ventures | Investment Analyst Intern Jan 2022 – Mar 2022

- Executed end-to-end financial due diligence on 5+ early-stage startups across APAC and the US; built **DCF, precedent transaction**, and comparable company models to estimate enterprise value and flag structural risks
- Assessed unit economics, capital structure viability, and scalability profiles to support investment committee decisions on angel and VC-stage deals

Legal Pay | Investment Banking Intern Oct 2021 – Dec 2021

- Built **LBO models** to evaluate **acquisition IRR** and debt service coverage across leverage scenarios; designed financial forecasting tools to support capital raising for legal-fintech investments
- Developed Excel/VBA automation and Tableau dashboards for financial reporting, improving cycle time by 25%

Fiserv | Software Development Engineer Oct 2019 – Aug 2020

- Engineered **high-throughput Python and SQL** data pipelines for real-time transaction processing across 100+ clients — architecture directly applicable to low-latency quant and systematic data workflows
- Improved data processing accuracy and throughput by 20%; designed automated validation modules to maintain integrity across large-scale financial datasets

EDUCATION

Indian Institute of Management, Indore

MBA – Finance • Top 10% of 572 | Top 2% in Finance, Strategy & CSR

2020 – 2022

Madan Mohan Malaviya University of Technology

B.Tech – Electronics & Communication Engineering • Top 3% of 140

2015 – 2019

CORE COMPETENCIES

Quantitative:	Equity valuation (DCF, LBO, Comps), factor risk (value/momentum/quality), portfolio optimisation (MVO), VaR, CVaR, drawdown analysis, stress testing, macro scenario modelling
Programming:	Python (Pandas, NumPy, SciPy, statsmodels, scikit-learn), SQL (PostgreSQL), VBA — backtesting frameworks, risk dashboards, high-throughput data pipelines, Git
Platforms:	Bloomberg Terminal, FactSet, Morningstar Direct, BlackRock Aladdin, Tableau, Power BI, Excel (Advanced)
Asset Classes:	Equities, Fixed Income, Multi-Asset, Venture / Private Equity
Derivatives:	Options & Futures (Hull Chapters 1–15), interest rate products, FX forwards

CERTIFICATIONS & LICENCES

CFA Level III Candidate (Level I cleared – 90th percentile; Level II cleared) • **NISM Certified Financial Analyst** • **Bloomberg Market Concepts (BMC)** • **CFI FMVA** • **Morningstar Direct Certified**

KEY PROJECTS & RESEARCH

- **De-Dollarisation Study** (JP Morgan): Quantified macro-driven USD exposure shift across multi-asset portfolios; modelled currency risk impact on returns under various reserve diversification scenarios — used to inform FX overlay decisions
- Portfolio Optimisation – Finlatics: Applied **Mean-Variance Optimisation (MVO)** to live equity portfolios using Python (NumPy, SciPy); achieved **80th-percentile** performance score vs. cohort — replicable framework for systematic equity allocation
- **LBO Valuation Study**: Built multi-scenario LBO models evaluating acquisition IRR, debt-service coverage ratios, and exit multiples at various leverage levels — developed strong intuition for capital structure risk in levered buyouts
- **Fiscal Multiplier Research**: Applied regression and time-series techniques to macroeconomic panel data to measure fiscal policy impact on GDP growth; validated multiplier effects under different monetary regime assumptions — directly relevant to macro fund analysis

ACHIEVEMENTS & LEADERSHIP

- Academic Distinction: Ranked Top 2% in Finance, Strategy, and CSR courses among 572 peers at IIM Indore (Top 10% overall batch)
- Finance Vertical Coordinator, IIM Indore: Managed budgeting, audits, and fund allocation for student-body financial initiatives
