kalekhya9999@gmail.com

Summary

- Software professional with around 4.5+ years of experience focusing on MS SQL Server Databases, Business Intelligence Tools, Tableau, Power BI, Sigma, Snowflake, Data Analytics and Dashboards.
- Proven Capacity in Power BI, Sigma, Tableau, SQL and Excel.
- Strong understanding of SQL and relational databases. Implemented automation of ETL frameworks to pull data from multiple Data sources. Experience with writing and performance tuning complex SQL queries.
- Good Hands on Experience in Vertica DB and Snowflake to create Tables /Projections /Views/ Partitions/ Segmentations.
- Developed and implemented Reporting, Analytics, and Data Visualization Solutions.
- Expertise in building complex dashboards using Tableau, Power BI & Sigma with particular experience in the healthcare industry.
- Re-designed few dashboards resulting in a 30% time decrease in medical HCP Analysis.
- Designed and developed 50+ Custom and Automated reports in Tableau & Power BI to directly address objectives and requirements thereby improving data usage.
- Performed data analysis that helped induce a proactive approach to decision making.
- Experience in designing and Optimizing reports using Reporting Services, Tableau, Power BI & Sigma.
- Experience in creating, configuring, and maintaining System Data Base.
- Excellent Communication and Interpersonal Skills with Strong Technical and Analytical reasoning ability.
- Eager to learn new technologies and can easily adapt to the new technologies and tools.

Skills

JAVA | PHP | Python | PL/SQL | SQL | MySQL | SQL/BI Developer | MySQL Workbench 8.0CE | Vertica | ETL | Data Migration | DWH | SSIS | Tableau | Microsoft Office Suite | MS Excel | Microsoft SQL Server | JIRA | Windows | Ubuntu | Data Analysis | Data Validation | Data Visualization | Data Quality | SAS | Power BI | Business Intelligence | Sigma | Snowflake

Education

Vardhaman College of Engineering
Bachelor of Technology, CGPA: 9.2

Awards

- Received Star of Month Award -(ValueLabs)
- Received Q3 Impact Awardee Winner -(Zelis)

Certifications

- Completed Snowflake - Master Essentials Course in Udemy.
- Mastered Power BI Full Course - Udemy
- Completed Data Story Telling, Business Ops & Communication Certifications in Udemy.

Experience

ZELIS
Analyst II - Data Analysis

Dec 2024 - Present *Hyderabad, Telangana, India*

- Responsible for Creating Dashboards and overall creation of Data Visualizations in Power BI and Sigma BI Tool.
- Assisted with Validations and mappings as required and handled ad hoc requests when needed and handled business review requests.
- Developed "RevOps Client Intake Dashboard" for Revenue Operations Team in Power BI to monitor the Client Management "Open, Closed & Other Key BR Requests & Reviews".
- Took Ownership and Developed "Client Management Compensation Dashboard" in Power BI & Sigma with RLS Implementation to show "Revenue/Trends" Data to Support better Client Engagement for SCM's, SCE's, Director's, SVP's, SAE VP's etc.
- Worked on Optimizing SQL Queries and Code for Performance and Scalability in Snowflake with development of Scripts.
- Signifiant contributions in terms of development of Business Reviews into Sigma Dashboard Develpment.
- Actively participated and being part of Development of "Power BI with Zippi - AI Project" , contributed with integration in Price, I&E Teams.

VALUE LABS
Senior Software Engineer

May 2023 - Dec 2024 *Hyderabad, Telangana, India*

- Planning, Coordinating and prioritizing PL/SQL development Tasks within the Project Schedules
- Managing communication and Collaboration among Team Members
- Optimizing SQL Queries and Code for Performance and Scalability
- Involved in Planning, Defining, and Designing Data based on Business Requirements
- Responsible for Creating Dashboards and overall creation of Data Visualizations in Power BI.
- Analyzed Data from Multiple Data Sources to Stream Line the Delivery of Information Across Products using ETL Tools and MS SQL Server
- Debugging and Trouble Shooting issues in PL/SQL Code and Optimized SQL Queries as per Task Requirements
- Developed Source Tables, M-Tables, Views, Projections & used to change SQL scripts basing on Our Requirements for Products we were developing in our project
- Good Experience in Solving Data Pull, Analysis, Data Validation Tasks and Finding Root Causes through Complex SQL Queries.
- Designed and Built Dashboards for 5+ Products using both Tableau and Power BI and also Solved Different kind of Issues in our Team.
- Developed and Optimized Reports and Dashboard using Power BI Platform & Tableau Tools.
- Proficient in Data Visualization, Reporting and Analysis using Bar Charts, Line Charts, Tree Maps, Pie Charts, Heat Maps, Scatter Plots, Dual Axis, Geographical Maps etc.
- Good SQL Reporting Skills with the ability to create SQL Views and write SQL Queries.
- Involved in Testing the SQL Scripts for report Development, Power BI Dashboards and handled performance Issues Efficiently.
- Worked on Creating Aggregations, Calculated Fields, Table Calculations, Total, Percentages using Key Performance Indicators (KPI's), and Measures etc
- Provided Customer Support to Users and also wrote Custom SQL Queries to support Business Requirements
- Also Used MS Excel, Power Point and Created Pivot Table, V-Lookup, Graphs and Charts to Analyze few Reports to Management
- Effectively Communicated and interacted with Marketing/Sales and Technical Teams to Solve Complex, Data Related Issues
- Used SVN as Version Management

VALUE LABS
Software Engineer

Jan 2022 - Apr 2023 *Hyderabad, Telangana, India*

- Here I extracted and reviewed Data from Various Heterogeneous Sources like (Excel, CSV, Oracle, Flat Files, Text Format Data) using SQL Server Integration Services from OLTP to OLAP
- Implemented Data Mart, Dimensions, Facts, Snow Flake, Star Schema and OLAP Cubes

- Developed and maintained SQL Scripts for Data Extraction, Transformation, and Loading (ETL) processes
- Collaborated with the Testing Team to validate data Accuracy and resolve data-related issues
- Responsible for Optimizing and Tuning Queries for Reports
- Created Data Base Objects Like Views, Indexes, Triggers and Stored Procedures
- Worked on Developing Excel Reports using SQL Navigator
- Generated Reports on a Weekly, Monthly and Quarterly Basis
- Contributed to Development of Reporting Solutions using SQL and Business Intelligence Tools

VALUE LABS

Software Engineering Intern

Hyderabad, Telangana, India

- Joined as an Intern in Value Labs and here along with team we built an e-commerce website Using Java, PHP, Html, Css and Boot Strap using Sublime Text editor and we also modified different back grounds the website.
- Also, created different stylings, and put images, along with different rows and columns created inside the website.
