Seeking a strategic **HR Business Partner role** to leverage expertise in **talent management, learning and development, workforce planning, organizational development, HR analytics, and employee lifecycle management** to drive people strategy, leadership capability, and business transformation.

PROFILE SUMMARY

- Strategic **HR Business Partner with ~10 years of progressive experience** driving people strategy, talent initiatives, and organizational effectiveness across IT services, financial services, and pharmaceutical manufacturing environments; currently associated with Cognizant.
- Exposure to **global consulting ecosystem and strategic HR initiatives**, contributing to programs associated with **Boston Consulting Group** through delivery support at Cognizant while strengthening global HR alignment and people strategy execution.
- Strong **HRBP expertise partnering with senior leadership** to align people strategy with business priorities, enabling workforce capability development, organizational growth, and operational effectiveness.
- Demonstrated experience in **talent management, succession planning, and leadership development**, supporting identification and development of high-potential talent and strengthening leadership pipelines aligned with business capability needs.
- Skilled in **Learning & Development and leadership capability building**, facilitating structured development initiatives, one-on-one developmental conversations, and career pathing frameworks to enhance employee readiness and long-term capability building.
- **Successfully managed the employee lifecycle**, covering strategic onboarding, workforce integration, performance management, engagement initiatives, and retention programs to enhance productivity and employee experience.
- Experienced in **strategic workforce planning and manpower optimization**, partnering with business leaders to forecast talent requirements, optimize resource allocation, and support large-scale workforce planning initiatives.
- Adept at **organizational development and change management**, supporting business transformation, structural realignments, and cultural initiatives that enhance agility and organizational effectiveness.
- Leveraged **AI-enabled HR tools** and analytics platforms (Power BI, Qlik, Excel) to drive **data-driven HR decision-making**, streamline workforce reporting, improve employee lifecycle management, and **train teams to extract actionable insights**, enhancing productivity and operational efficiency across business verticals.
- **Strong capability in stakeholder management and cross-functional collaboration**, partnering with HR COEs and leadership teams across India, EMEA, APAC, Latin America, and North America to deliver integrated HR solutions within global delivery environments.
