SKILLS

- CSPM Audits
- Internal Red Teaming
- Web Application Testing
- Mobile Application Testing
- API Security Testing
- Wifi Penetration Testing
- Secure Configuration Review
- Secure Code Review
- Network SecurityTesting
- Vulnerability Assessment
- Vulnerability Remediation
- Conducting Audits(TPCA)
- VLAN Segementation Review

PROFILE

I am an experienced and certified cybersecurity professional with over 4.5+ years of experience in Penetration Testing for client-side engagements. I have orchestrated client-side penetration testing engagements for leading global firms like Grant Thornton Bharat, KPMG India and TATA Communications, resulting in major increase in the identification & remediation of critical vulnerabilities

WORK EXPERIENCE

Grant Thornton Bharat LLP

SEP 2024 - Present

Assistant Manager

- Led Infrastructure VA/PT and CSPM audits for cloud-native environments (AWS/Azure), scanning 300+ assets and remediating 95% of critical vulnerabilities within SLA.
- Performed grey box security assessments for 10+ high-impact web applications of a foreign bank, identifying 150+ vulnerabilities.
- Performed authenticated and unauthenticated VA scans for a credit rating agency & multiple banks using Nessus Pro, covering 250+ servers and conducting greybox security assessments for 10+ business-critical web applications (internal & external).
- Conducted on-site VAPT engagements at multiple client locations, delivering zero critical findings post-remediation across 200+ systems.
- Executed Wi-Fi penetration testing and VLAN segmentation reviews at the client's office, identifying 3 major misconfigurations and assisting in closing 100% of high-risk gaps within two weeks.

Senior Consultant

- Worked as an L3 in a major telecommunication client to perform an Application Security assessment.
- Worked as a Lead, managing a team of 9 members in a consulting environment, handling day-to-day client billing operations
- Perform Web application Testing, Mobile application testing and API Penetration Testing for various other clients.
- Performed Infra VAPT using Nessus Professional on a banking client for their external and internal devices.
- Created staff rosters and conducted daily one-on-one status updates with the client.

CERTIFICATIONS

- CRTP
- eWPTX
- CEH

TOOLS

- BURPSUITE PRO
- Nessus Pro
- Postman
- Qualys
- Crackmapexec
- Netexec
- Hashcat
- Bloodhound
- Kismet
- Airmon-ng
- NMAP
- EAPHammer
- Jadx-GUI
- APK Editor
- MOB-SF
- VTM

KPMG India

Associate Security Consultant MAY 2023 - SEP 2024

- Performed Web, Mobile and API Security testing of various applications using Burp Pro, MobSF,KNOX, Frida, Postman etc.
- Performed closure of security issues at the configuration level of various servers like Apache, Apache Tomcat, IIS 10, JBOSS etc.
- Worked as a VA lead and performed authenticated and unauthenticated scanning of infrastructure devices using Nessus PRO and Tenable.sc
- Performed Config reviews of various OS, Webservers, network devices and databases based on CIS benchmark.
- Worked with client in handling Audits like TPCA.
- Created Config reviews documents for secure config reviews.

TATA Communications Ltd

Cyber Security Engineer

- Web & Mobile Applications Testing, referring to OWASP top 10 using MobSF & Burpsuite. Network Penetration Testing refers to online checklist like HackTrickz.
- Experience in performing Malware Testing using the Qualys Tool Malware Scanning module.
- Performed Unauthenticated scanning of web applications using Qualys.
