CAREER OBJECTIVE

Motivated and detail-oriented Full-Stack Engineer with 8+ years of experience in designing and delivering robust, scalable, and high-performance web applications. Adept at modern frameworks, backend services, and system integrations. Seeking to leverage strong technical expertise and communication skills to contribute meaningfully to organizational success.

PROFESSIONAL EXPERIENCE

Senior Web Developer
RV Solutions Pvt. Ltd. | Apr 2022 – Present

- Lead development of scalable web applications using PHP Laravel, Node.js, and modern frontend frameworks (React.js, Next.js, Angular).
- Architect and integrate high-performance modules and APIs.
- Optimize database queries, improve performance, and ensure application security.
- Collaborate with clients to gather requirements and deliver project updates.
- Mentor junior developers and enforce code quality standards.

Full-Stack Developer
Globalhunt Technologies Pvt. Ltd. | Aug 2020 – Mar 2022

- Built and maintained dynamic web applications using Laravel, JavaScript, React.js, and Angular.
- Integrated RESTful APIs and third-party services for business-critical features.
- Enhanced application performance and implemented database security in MySQL.
- Collaborated with cross-functional teams to deliver projects within tight deadlines.

Web Designer & Developer
RR Multisales | Nov 2018 – Aug 2020

- Designed and developed responsive, SEO-friendly websites for clients.
- Improved UI/UX through modern design practices and performance optimization.
- Boosted site traffic by ~20% through speed and SEO enhancements.

Web Developer
Finelogics Consulting | Aug 2016 – Nov 2017

- Developed responsive web applications in collaboration with designers.
- Reviewed and optimized code for performance improvements.
- Delivered modern, user-friendly solutions using the latest web technologies.

PROJECTS & RESPONSIBILITIES

Client: Ministry of Health & Family Welfare (Govt. of India)
Technologies: Laravel, Angular 17, MySQL, JavaScript, Bootstrap, Git
Project: PMNDP (Pradhan Mantri National Dialysis Programme Portal)

- Designed and developed a government healthcare portal to manage dialysis centers, patients, and treatment records nationwide.
- Built REST APIs for Angular frontend integration with Laravel backend.
- Implemented real-time dashboards, reporting modules, and role-based access.
- Ensured compliance with government IT security and scalability guidelines.

Client: Internal Project – Knowledge Base Platform
Technologies: Python FastAPI, React, MySQL, Git
Project: Centralized Knowledge Base System

- Built a centralized platform to document, manage, and search organizational knowledge.
- Developed FastAPI backend with modular microservices.
- Created a React-based frontend with advanced search and filtering.
- Integrated MySQL for structured storage and role-based access controls.

Client: Aequor Seafoods
Technologies: PHP Laravel, MySQL, JavaScript, HTML5, CSS3, Bootstrap
Project: E-Commerce Seafood Platform

- Developed a responsive e-commerce solution for online seafood sales.
- Integrated order management, inventory control, and payment gateway.
- Enhanced mobile-first UI/UX and optimized SEO for better traffic.

Client: Powerpack Electricals
Technologies: Laravel, MySQL, JavaScript, jQuery, Bootstrap
