## ABOUT ME

Results-driven **System Administrator | IT Support Engineer | Cybersecurity Analyst** with **5+ years of experience** in **IT infrastructure management, network administration, and cybersecurity support** across academic and corporate environments. Skilled in **Windows & Linux server administration, Active Directory (AD DS), Office 365, VLAN configuration, firewalls (FortiGate), VPN, and endpoint security**. Proven expertise in **vulnerability assessment (Nessus, OpenVAS)**, **incident response support**, and **SIEM log monitoring**. Strong track record in **backup & disaster recovery planning, patch management, and compliance documentation (NAAC, accreditation audits)**. Adept at troubleshooting complex systems, managing IT assets, and providing **end-to-end technical support** for 2000+ users. Committed to leveraging technology to enhance **infrastructure security, academic delivery, and business continuity**.

## WORK EXPERIENCE

**IT Support Administrator,** 08/2024 – Present

*Ramanbyte Pvt. Ltd. / Pune Institute of Business Management, Pune* Pune

- Delivered end-to-end IT support for a hybrid academic and corporate environment serving 500+ staff and 2000+ students.
- Architected and maintained secure campus infrastructure: VLAN design, FortiGate firewall rules, Cisco access points, and Wi-Fi segmentation.
- Integrated Azure AD with Office 365, implementing MFA, conditional access policies, and streamlining user lifecycle management.
- Conducted vulnerability scanning (Nessus, OpenVAS) and implemented endpoint security measures and automated patch management.
- Deployed and secured Redmine project management server with UFW, SSH hardening, and role-based access control.
- Led disaster recovery planning, regular backup validation (Veeam, native tools), and ITIL-compliant documentation practices.
- Acted as primary technical lead during high-impact audits, including online MBA accreditation, ensuring infrastructure readiness and stakeholder coordination.
- Collaborated with digital marketing and media teams on IT support for content creation, shared drives, Teams, and email systems.
- Managed vendor coordination, AMC renewals, IT procurement, and license audits across endpoints and cloud services.
- Developed and enforced IT SOPs, inventory controls, and knowledge base articles to streamline operations.
- Coordinated with marketing teams to schedule and post event highlights, BTS clips, and promotional content across Instagram, LinkedIn, Facebook, and YouTube.
- Monitored engagement metrics (likes, shares, comments) and provided insights to enhance content performance.
- Managed live streaming and AV/VC setups for high-profile events including MSME, and VIP ministerial visits, ensuring flawless execution and audience engagement.

**System Administrator (IT & Media Operations),** *Vedic Group of Institutions, Odisha* 03/2021 – 08/2024
Odisha

- Sole IT administrator for 3 academic campuses, delivering end-to-end L2 support for 300+ employees and managing daily operations across systems, networks, and devices.
- Configured and maintained Office 365 accounts, Outlook troubleshooting, and user profile policies; ensured seamless communication across departments.
- Diagnosed and resolved LAN/Wi-Fi issues, managed device provisioning, and coordinated OS upgrades and patching cycles in the absence of firewall/server infrastructure.
- Standardized IT asset management across branches; maintained inventory logs, AMC schedules, and hardware servicing records.
- Served as Media Executive - led planning, execution, and live-streaming of high- profile events including: TEDx Talk (Online) - full VC setup, remote speaker support, and audience live streaming. Model United Nations (MUN) - end-to-end AV and IT coordination for 3 editions. Education Minister's Visits (3x) - managed critical AV, display, and sound systems under tight deadlines.
- Created branding and media assets using Canva, OBS Studio, and Adobe tools; supported the digital marketing team with content distribution and tech troubleshooting.
- Delivered on-campus training for staff and faculty on tools like Zoom, Google Meet, and email security awareness.
- Contributed to basic endpoint security, Windows updates, antivirus checks, and secure handling of event media and documents.

**IT Helpdesk Technician,** *KOEL Care, Odisha* 08/2019 – 03/2021
Odisha

- Delivered Tier-1 IT support for 150+ endpoints covering Windows OS, LAN/Wi-Fi, printing, and application issues in a distributed field service environment.
- Performed software installation and configuration, including antivirus (Quick Heal, Windows Defender), VPN setup (FortiClient/OpenVPN), and basic patching tasks.
- Maintained and tracked IT hardware (laptops, routers, cables) using manual inventory logs; issued replacement tickets and updated records regularly.
- Escalated unresolved L2 issues to senior engineers with root cause analysis reports and interim fixes.
- Led weekly awareness sessions for end-users covering topics such as phishing, password hygiene, safe USB usage, and secure browsing.
- Provided IT support during service center visits, field meetings, and coordination calls between branches.

## 🎓 EDUCATION

**Master of Business Administration (MBA) - Information Technology,** 2025 – Present
*Bharati Vidyapeeth Deemed University*

**Bachelor of Technology (B.Tech) - Computer Science & Engineering,** 2020 – 2023
*Black Diamond College of Engineering & Technology*

**Diploma in Information Technology,** 2015 – 2018
*Jharsuguda Engineering School*

**High School,** 2012 - 2015
*Little Angel's Senior Secondary School*

## SKILLS

- Vulnerability Assessment & Management
- Active Directory, DNS, DHCP, Group Policy
- Firewall Rules, VPN, and VLAN Setup
- Office 365 & Cloud-based User Management
- AV/VC Setup, Event Support, and Digital Tools
- System Administration
- Endpoint Security & Hardening
- Windows & Linux Server Administration
- Network Configuration & Troubleshooting
- Basic SIEM Monitoring & Log Analysis
- Backup Management & Disaster Recovery
- Network Security

## PROJECTS

**Vulnerability Assessment Lab (Cybersecurity Capstone Project),** *Intellipaat*
Performed vulnerability scanning on virtual machines using Nessus and OpenVAS as part of hands-on training.

**Lane Following Robot,** *Major Project B.Tech - Black Diamond College of Engineering*
Designed an autonomous robot using IR sensors and Arduino to follow a path with obstacle detection.

**Student Portal Website (Diploma Final Year Project),** *Jharsuguda Engineering School*
Developed a dynamic web application using HTML, CSS, PHP, and MySQL for managing student records.

## CERTIFICATIONS

**IIT Roorkee - Intellipaat | Jul 2025**
Advanced Certification in Cyber Security & Ethical Hacking

**Coursera Nov 2020**
IBM Cybersecurity Analyst Professional Certificate
