SUMMARY

AI/ML Engineer with 1.8 years of experience in Machine Learning, Deep Learning, Generative AI and NLP. Skilled in Python, Django, and FAST APIs with expertise in building AI-powered applications, agentic AI systems, and deploying production-ready solutions. Passionate about delivering scalable, real-world impact through state-of-the-art technologies.

TECHNICAL SKILLS

Programming Languages: Python
Database : SQL, PostgreSQL,Faiss,Chroma,Redis
Web Development Frameworks: Django, Flask, FAST API, Streamlit
Libraries: Numpy,Pandas, Scikit-learn, Seaborn , Matplotlib, TensorFlow, PyTorch, Keras, OpenCV,OCR,Gradio.
AI/ML Specialization: Natural Language Processing (NLP, Transformers, Sentiment Analysis, NLTK), GPT,BERT, Computer Vision (Object Detection, Image Segmentation,YOLO), Classification and Regression Models, Generative Models, Recommendation Systems, Feature Engineering and Selection ,EDA ,Data Pipeline, Prompt Engineering, Deep Learning, Parameter Efficient Fine-Tuning (LoRA, QloRA).
Cloud Platforms: AWS(Amazon Web Service),Streamlit Cloud, Python Anywhere,FastMCP.
Agentic-AI FrameWork: Langchain, Langgraph,LangFlow,Crew AI, Agno, Llamaindex,Smolagents,LangSmith,MCP.
OpenSource AI Community : HuggingFace, Groq,Open Router, Kaggle,Ollama,Unsloth.
Development & Collaboration Tools : NotebookLM, PyCharm, Visual Studio Code, Postman,Google colab ,Cursor,Lovable, Git,Docker

EXPERIENCE

Company: Chetu India Pvt Ltd **(Feb 2024 – Oct 2025)**
Title: AI Engineer | Data Scientist

Summary: Implemented cutting-edge AI/ML, IoT automation, and backend solutions across diverse domains including education, healthcare, and enterprise systems. Specialized in building scalable platforms, integrating LLM-powered applications, and deploying production-ready solutions on AWS and Streamlit Cloud to drive automation, efficiency, and user engagement.

- **EnvironmentsByLE:**
  Engineered an advanced IoT automation ecosystem for enterprise environments. Built features like room booking, natural language control for IoT devices (lights, doors), real-time sensor data gathering using SQL agents, and custom API integrations. Integrated RAG based querying for domain specific knowledge and real time web search. Deployed on AWS with scalable architecture, enabling reliable and secure automation for organizations.
- **ChippewaValleyUniversity:**
  Designed and developed an AI-powered education platform enabling students and faculty to streamline study material creation and assessments. Teachers could generate exam Q&A sets, while students could upload documents and receive AI-generated summaries, questions, PPTs, PDFs, and real-time assessments. Delivered a robust backend and AI integration that enhanced student learning outcomes and academic workflows. .
- **MedicalTriage&AppointmentSystem:**
  Built an AI driven triage and appointment scheduling platform integrated with real time hospital data and emergency APIs. Enabled patients to get instant AI guided assessments and book appointments efficiently, reducing emergency response time and improving patient management.
- **WoundDetection(ComputerVision–YOLO):**
  Developed a wound severity detection model using YOLO to classify and assess wound conditions, enabling faster and more accurate medical triage support.
- **AI-PoweredCollegeRecommendationSystem:**
  Implemented an NLP and ML based recommendation engine t o suggest top colleges based on student preferences (infrastructure, faculty, fees, placement, etc.). Integrated into a Django based web platform with an intuitive user interface for real time personalized recommendations.
- **LLMApplications(StreamlitCloudDeployments):**
  • **Chatbot App** – aibiplab.streamlit.app: Built an interactive LLM powered chatbot using LangChain and deployed on Streamlit Cloud.
  • **Human Attribution Detection** – beanai.streamlit.app: Developed an AI system leveraging Gemini to classify human attribution with real time inference and hosted it on Streamlit Cloud.

EDUCATION

Qualification	Year of Passing	Institute	University	Percentage/Grade
B.Tech. (CSE)	2024	Nalanda Institute Of Technology	BPUT University	8.88

SOFT SKILLS

- Strong analytical and problem-solving abilities
- Effective communication and team collaboration
