LALIT DUBEY

Senior Backend Engineer (PHP/Laravel) | Technical Lead | 10+ Years | SaaS & eCommerce

+91 8802843631 | lalit10789@gmail.com | Gurgaon

PROFESSIONAL SUMMARY

Senior Backend Engineer with 10+ years of experience building scalable eCommerce and SaaS platforms. Expertise in PHP, Laravel, Symfony, REST APIs, and MySQL optimization, with a strong focus on performance tuning and system reliability.

Proven track record of designing high-performance backend systems, leading development teams, and implementing CI/CD pipelines to ensure seamless and stable deployments.

Recently focused on AI-assisted development, building and integrating **AI-powered** solutions to automate debugging, optimize backend workflows, and improve development productivity.

Passionate about developing secure, scalable, and efficient systems while leveraging modern technologies, including DevOps, automation, and AI-driven engineering practices.

TECHNICAL SKILLS

Programming Languages: PHP, JavaScript, MYSQL, MariaDB
Frameworks & Technologies: Laravel, Symfony, Yii2, CodeIgniter, React, Bootstrap, WordPress, CS-Cart
Frontend: HTML5, CSS3, JavaScript, Typescript, jQuery
Backend Development: REST APIs, SOAP, Microservices, MVC Architecture, API-Driven Systems, Multi-Tenant SaaS
DevOps & Tools: Docker, Git, Jenkins, CI/CD Pipelines
Databases: MySQL (Query Optimization, Indexing, Performance Tuning)
Platforms: Linux/Ubuntu
Methodologies: Agile/Scrum, Sprint Planning, Code Reviews
Domain Expertise: eCommerce (B2B/B2C), SaaS Platforms, ERP, CRM, LMS
Integrations: Payment Gateways (Authorize.Net, Razorpay), Logistics APIs, Tax APIs

PROFESSIONAL EXPERIENCE (10+ YEARS)

Senior PHP Developer / Technical Lead | *Apr 2023 - Present*
Basis Vectors Portfolio Services India Pvt. Ltd. (CommerceV3) | *Gurgaon*

- Leading backend development for a multi-tenant eCommerce SaaS platform supporting multiple merchants and high-volume transactions
- Designing and implementing secure RESTful APIs for products, checkout, orders, promotions, and third-party integrations.
- Developing and maintaining payment gateway integrations including Authorize.Net and Razorpay.
- Conducting code reviews and enforcing coding standards to maintain clean, maintainable architecture.
- Managing CI/CD pipelines using Jenkins and Git-based workflows to ensure stable and repeatable deployments.
- Monitoring production systems, analyzing logs, and resolving live issues to maintain application stability.
- Implementing caching strategies and optimizing database queries to improve API and page response times.
- Refactoring critical backend modules to enhance checkout reliability and reduce cart-related failures.
- Designing and maintaining multi-tenant features including pricing rules, logistics integrations, and tax services.
- Collaborating closely with product, QA, and frontend teams to deliver scalable and reliable releases.
- Mentoring junior developers and guiding them on Laravel best practices, debugging strategies, and code quality improvements.

AI & Automation Contributions:

- Developed an AI-based log analysis tool using PHP and OpenAI API to automatically detect errors and suggest fixes
- Designed end-to-end flow: log input → API request → AI-based root cause analysis → fix recommendation
- Integrated AI API using cURL to process application logs and return structured debugging insights
- Reduced manual debugging effort by automating log analysis and improving issue resolution speed
- Built reusable backend utility to assist developers in identifying production issues efficiently
- Applied prompt engineering techniques to improve accuracy of AI-generated responses

Technologies Used: *PHP, REST APIs, MariaDB, MySQL, CI/CD, Docker, Git, Jenkins, Linux/Ubuntu, Caching, Payment Gateways (Authorize.Net, Razorpay)*

Senior PHP Developer | *Apr 2022 - Mar 2023*
Stratbeans Consulting Pvt. Ltd. | *Gurgaon*

- Designed and developed LMS modules using **Laravel** & **Yii** and **ReactJS**, aligned with enterprise training workflows.
- Built and maintained RESTful APIs for integrations with third-party HR and analytics platforms.
- Refactored existing modules to improve code structure, maintainability, and overall application performance.
- Optimized database queries and reduced unnecessary API calls to improve system responsiveness.
- Collaborated closely with UI/UX and frontend teams to enhance usability and cross-device compatibility.
- Participated in code reviews and implemented structured development practices to improve release quality.
- Contributed to automated regression testing to minimize recurring production issues.

Technologies Used: Laravel, *Yii, React, REST APIs, MySQL*

Senior PHP Developer | *Oct 2020 - Mar 2022*
Alphacma Pvt. Ltd. | *Gurgaon*

- Developed and optimized large-scale **eCommerce** and content applications using **Laravel**.
- Implemented indexing and caching strategies to improve SQL query performance and overall application responsiveness.
- Refined user signup flow and referral features to improve onboarding experience and system usability.
- Contributed to improving test coverage and strengthening release stability through structured testing practices.

Technologies Used: *Laravel, PHP, MySQL, Indexing, Caching*

PHP Developer | *Mar 2019 - Sep 2020*
Onjection Pvt. Ltd. | *Gurgaon*

- Built and maintained core PHP modules for multiple eCommerce and CRM implementations with **configurable dashboards**.
- Customized and deployed admin dashboards to support operational workflows and reporting requirements.
- Integrated payment, shipping, and CRM APIs to streamline system processes and reduce manual operational effort.

Technologies Used: Laravel, *Cs-cart , MySQL, HTML5, CSS3, JavaScript, jQuery, Bootstrap, REST APIs*

PHP Developer | *Jun 2016 - Feb 2019*
A.A.M Infotech Pvt. Ltd. | *New Delhi*

- Delivered multiple **B2B eCommerce and ERP** web applications using PHP and MySQL while following security and compliance standards.
- Contributed to migrating legacy systems to modern PHP frameworks to improve maintainability and code structure.
- Implemented secure authentication mechanisms and role-based access control (RBAC) for enterprise workflows.

Technologies Used: *PHP, MySQL, MVC frameworks, Authentication, RBAC*

PHP Developer | *Jun 2015 - May 2016*
Xperia Technology Pvt. Ltd. | *New Delhi*

- Developed and launched company websites and CRM tools with **responsive**, **cross-browser** frontends and reliable backends.
- Executed end-to-end frontend development and backend integration, ensuring compatibility across devices and browsers.
- Followed structured release practices to maintain application stability after deployment.

Technologies Used: *PHP, MySQL, HTML5, CSS3, JavaScript*

PROJECTS

Kindlife. in | **Alphacma Pvt. Ltd.**

Full-stack B2B eCommerce solution using Laravel, MySQL, and Bootstrap for wholesale operations and bulk order management.

- Managed product catalog and business client workflows for bulk ordering and quotation processes.
- Implemented features to streamline bulk ordering and improve procurement handling within the system.
- Developed a responsive admin dashboard for inventory and order management.

TVS Daksha | **Stratbeans Consulting Pvt. Ltd.**

LMS portal for employee training built with Yii2 and ReactJS.

- Implemented modular LMS features supported by RESTful services for structured training workflows.
- Improved application responsiveness and optimized frontend performance across devices.

ShakeDeal.com | **Onjection Pvt. Ltd**

B2B commerce application with advanced product management using PHP, Ubuntu, and MySQL.

- Managed large product catalog and optimized database queries to improve search and checkout performance.
- Implemented inventory management, bulk order processing, and dynamic pricing features for wholesale workflows.

Zwing.in / GoZwing.com | **Onjection Pvt. Ltd.**

Zwing is a cloud-based Point of Sale (POS) platform designed to provide a seamless and modern billing experience across both mobile and web environments.

- Developed and maintained scalable backend modules using PHP for both mobile & Web POS applications
- Designed and implemented RESTful APIs to support real-time billing, order processing, and inventory management

Healthcare Portal (Internal CRM System) | **A.A.M Infotech Pvt. Ltd.**

CRM-based healthcare information portal using CodeIgniter, PHP, and MySQL.

- Optimized **data retrieval** and search functionality to improve query efficiency.
- Implemented secure access controls and audit trail mechanisms to support compliance requirements.

SnapClean (Internal Service Management Platform) | **Xperia Technology Pvt. Ltd**

On-demand cleaning services application with user login and order tracking.

- Developed booking and order tracking workflows within the application.
- Implemented real-time status updates to improve user visibility and service communication.

Store.commercev3.com | **Basis Vectors Portfolio Services India Pvt. Ltd.**

https://store.commercev3.com/

High-performance multi-tenant eCommerce SaaS for merchants; includes product, pricing, promotions, checkout, orders, and integrations.

- Designed secure **RESTful services** and transactional workflows to support multi-merchant operations and stable checkout processes.
- Optimized backend logic and database queries to improve application performance and scalability.

EDUCATION

Bachelor of Engineering (B.E.) |*2012*

I.E.T. Khandari, Dr. B.R. Ambedkar University, Agra | *Agra*

ACHIEVEMENTS

- Best Code Quality Initiative (Stratbeans Consulting, 2022)
