CHANDRAKANT SUDHAKAR INGLE

Sr. Service Engineer | Electronic Servicing & Maintenance | PCB Level Troubleshooting

Email: chandrakantingle93@gmail.com | **Mobile:** 8652333740 | **Location:** Mumbai, Maharashtra, India

PROFESSIONAL SUMMARY

A highly dedicated and technically skilled Service Engineer with over 8 years of progressive experience in the installation, calibration, maintenance, and component-level repair of complex electronic equipment, particularly in the domain of radiation safety and industrial monitoring instruments. Seeking a Sr. Service Engineer role to leverage proven expertise in PCB troubleshooting, circuit analysis, and critical system support to drive efficiency and quality assurance in a challenging, growth-oriented environment.

CORE TECHNICAL EXPERTISE

• **PCB Level Repair:** Expert troubleshooting, diagnosis, and repair of defective electronic circuits and components.
• **Soldering & Rework:** Proficient in fine-pitch soldering and desoldering techniques for both Through-hole and SMD components, including trace repair.
• **Instrumentation:** Installation, calibration, and maintenance of specialized instruments (e.g., Radiation Safety, Electronic Monitoring Systems).
• **Tools & Diagnostics:** Skilled in using Multimeter, Oscilloscope, Function Generator, Modbus Poll, and HyperTerminal for testing and maintenance.
• **Documentation & QA:** Maintaining technical documentation, repair logs, and ensuring product reliability and calibration accuracy.
• **Emerging Technology Integration:** Experienced in exploring and utilizing AI tools to enhance predictive maintenance planning and automate routine documentation processes.

PROFESSIONAL EXPERIENCE

Service Engineer

Nathani Industrial Services Pvt. Ltd. | Mumbai, India
May 2022 – Present

- Led the installation, calibration, preventive, and corrective maintenance of specialized radiation safety and electronic monitoring instruments for critical clients.

- Routinely performed component-level PCB repair, diagnosing complex faults, executing precise component replacement and circuit corrections, maintaining a high first-time fix rate and reducing system downtime.
- Delivered high-level technical support, training, and product demonstrations, fostering strong relationships with major industrial and research clients, including Tata Steel, Maruti Suzuki, B.A.R.C., and B.R.I.T.
- Implemented and maintained Scrap Monitoring Systems (using Ludlum Model 4525) and managed Radiation Portal Monitors for vehicle/material screening.
- Executed Optical Fiber Cable (OFC) conversions to optimize data communication reliability in monitoring systems.
- Drove sales and market presence by managing product listings on e-commerce portals (Amazon, IndiaMART) and successfully participating in E-auction bidding on the MSTC platform.

Jr. Engineer

PLA Electro Appliance Pvt. Ltd. | Mumbai, India
July 2017 – May 2022

- Successfully installed radiation instruments at highly sensitive nuclear facilities (B.A.R.C., B.R.I.T.), ensuring adherence to stringent safety and operational protocols.
- Involved in the production, comprehensive testing, and quality control (QC) of radiation safety instruments and electronic assemblies.
- Collaborated with R&D teams to provide feedback on electronic circuit performance, contributing to product reliability improvements.
- Operated and maintained a range of instruments including microR / microSv Meters, Hand & Foot Monitors, Pocket Dosimeters, and Continuous Air Monitors.

PROJECTS

Project Title: Scrap Monitoring System Installation – Ludlum Model 4525-7000

Tag: Nathani Industrial Services Pvt. Ltd.
Client: Tata Steel, Jamshedpur
Project Status: Completed
Worked From: November 2023 – November 2023 (7 days)
Details:
Led the installation and commissioning of the Ludlum Model 4525 Scrap Monitoring System to detect and prevent radioactive contamination in scrap metal shipments. Configured sensors, performed Ethernet conversions for data transmission, calibrated detectors, and trained on-site engineers in system operation and maintenance.

Project Title: Radiation Portal Monitor Installation Ludlum Model 4525-5000

Tag: Nathani Industrial Services Pvt. Ltd.
Client: Maruti Suzuki, Gurgaon
Project Status: Completed
Worked From: July 2022 – July 2022
Details:
Supervised end-to-end installation of Radiation Portal Monitors for vehicle and material screening at plant entry points. Integrated real-time monitoring software and ensured compliance with radiation safety standards. Delivered user training and technical documentation to the client's maintenance team.

Project Title: Continuous Air Monitoring System Calibration

Tag: PLA Electro Appliance Pvt. Ltd.
Client: Bhabha Atomic Research Centre (B.A.R.C.), Mumbai
Project Status: Completed
Worked From: March 2022 – May 2022
Details:
Executed calibration and functional verification of Continuous Air Monitoring systems to ensure accuracy in radiation detection in controlled environments. Performed PCB-level testing, component replacement, and QA documentation under strict safety protocols.

Project Title: Hand & Foot Monitor Installation

Tag: PLA Electro Appliance Pvt. Ltd.
Client: Board of Radiation & Isotope Technology (B.R.I.T.), Mumbai
Project Status: Completed
Worked From: February 2018 – February 2018
Details:
Installed and validated Hand & Foot Monitors for radiation worker contamination control. Configured detection thresholds, verified operational stability, and supported system integration within the client's radiation control program.

EDUCATION

- **Bachelor of Commerce (B.Com)** | Yashwantrao Chavan Maharashtra Open University, Mumbai — 60%
- **Diploma in Electronics & Telecommunication Engineering** | Vidyalankar Polytechnic, Mumbai — 60%
- **Higher Secondary Certificate (HSC)** | Shivaji Shikshan Sansthan – Multipurpose Technical High School, Mumbai — 63.17%
- **Secondary School Certificate (SSC)** | Little Flower English High School, Mumbai — 50.20%

PERSONAL DETAILS

Date of Birth: 01 July 1993
Marital Status: Unmarried
Nationality: Indian
Languages: English, Hindi, Marathi (Proficient in Reading, Writing, and Speaking)

HOBBIES

- Watching Anime & Documentaries
- Traveling & Exploring Technology
- Listening to Music
- Video Editing
