

SHIVANSH RASTOGI

Senior Infrastructure Architect | Cloud Solutions Expert | DevOps Leader

Phone: +91 8750222445
Email: shivansh.rastogi@gmail.com
Current Address: Noida Sec 150, India
Permanent Address: Navi Mumbai, India
Passport: C1405627 (Valid till 2034)
DOB: August 22, 1982

CAREER OBJECTIVE

Seeking a challenging Infrastructure Architect position to leverage 15+ years of hands-on technical expertise in Cloud engineering, UNIX System Administration, DevOps and Middleware technologies. Proven track record of architecting scalable solutions, leading complex migrations, and delivering measurable business value through innovative infrastructure designs and automation strategies.

CORE TECHNICAL COMPETENCIES

Cloud Platforms & Architecture

Google Cloud Platform (GCP), Amazon Web Services (AWS), Microsoft Azure, Hybrid Cloud Solutions, Infrastructure as Code (IaC), Cloud Cost Optimization

Operating Systems & UNIX Administration

Linux (CentOS, RHEL), UNIX (HP-UX, Solaris, AIX), Windows Server 2012/2016/2019, Shell Scripting, System Performance Tuning

Middleware & Application Servers

IBM WebSphere 8.5/9.0, Oracle WebLogic 11g/12c, Apache Tomcat, JBoss EAP, IBM MQ, Tibco, ESB, SSL/TLS Configuration

DevOps& Automation

Kubernetes, Docker, Ansible, Puppet, Jenkins, Git, IBM UrbanCode Deploy, CI/CD Pipelines, Infrastructure Automation

Monitoring &Observability

Nagios, Geneos, Splunk, Dynatrace, Prometheus, Grafana, ELK Stack, APM Solutions, SRE Practices

Database & Storage

Oracle 9i/10g/11g/12c, MS SQL Server, MySQL, PostgreSQL, DynamoDB, AWS RDS Aurora, Database

PROFESSIONAL EXPERIENCE

Site Reliability Engineer

HCL Technologies Ltd

Oct 2024 - Present

Clients: Novartis, AJG **Domain:** Healthcare/Insurance **Team:** 4 members

- Architected SRE framework reducing MTTR by **60%** and improving service reliability to **99.9% uptime**
- Suggested automated incident response workflows using Azure Logic Apps, decreasing manual intervention by **70%**
- Optimized Dell Boomi integration platform performance, improving data processing speed by **40%**
- Implemented infrastructure monitoring solutions reducing false alerts by **55%**
- Developed comprehensive runbooks and technical documentation achieving 100% client sign-off

Tech Stack: *Linux, Windows, Apache Tomcat, JBoss, IIS, IBM WebSphere, Microsoft Azure, Dell Boomi*

Senior Middleware Administrator & DevOps Lead
HCL Technologies Ltd

Jul 2023 - Oct 2024

Client: Centene**Domain:** Healthcare **Team:** 9 members

- Engineered 24x7 middleware operations achieving **98.5% SLA compliance** across critical healthcare systems
- Designed Auto deployment pipelines using Azure DevOps, reducing deployment time by**80%**
- Implemented middleware clustering solutions improving application availability by **35%**
- Implemented URL based redirections At Webserverand Load balancer level.
- Optimized JVM performance parameters resulting in **25% better throughput** for high-traffic applications
- Led stakeholder engagement and technical decision-making, driving alignment on complex AI architectures and successfully delivered Generative AI solutions across hybrid environments

Tech Stack Apache Tomcat, JBoss, IBM MQ, Tibco, IBM WebSphere, Linux, RHEL, Shell Scripting, Azure DevOps, Azure OpenAI

Cloud Infrastructure Architect & Migration Lead
HCL Technologies Ltd

Jul 2020 - Jun 2023

Client: Ericsson **Projects:** IM2C, IAC **Team:** 21 members

- Architected and executed cloud migration strategies for 500+ applications, achieving **$2.5M cost savings**
- Designed multi-cloud infrastructure spanning GCP, AWS, and Azure with **99.95% availability**
- Implemented Infrastructure as Code using Terraform, reducing provisioning time by **90%**
- Optimized cloud resource utilization achieving **45% cost reduction** through right-sizing and automation
- Led disaster recovery architecture design with RTO of **30 minutes** and RPO of **5 minutes**

Tech Stack: *GCP, AWS, Azure, Terraform, Kubernetes, Docker, AWS RDS Aurora, DynamoDB*

Cloud Operations Architect
HCL Technologies Ltd

Jul 2019 - Jul 2020

Client: Multi-Client Operations **Team:** 32 members

- Designed centralized cloud operations platform managing **10+ enterprise clients** with shared services model
- Implemented automated patch management using Red Hat Satellite reducing patching cycles by **75%**
- Architected cloud monitoring solutions achieving **99.8% infrastructure visibility**
- Optimized cloud resource costs through auto-scaling and scheduling, saving **30% annually**
- Developed cloud governance policies ensuring **100% compliance** across all managed environments

Tech Stack: *GCP, AWS, Service Now, Turbot, Ansible Tower, Red Hat Satellite*

Middleware and DevOps Archiect
HCL Technologies

Aug 2018 - Jul 2019

Client: Nokia **Domain:** Network Systems **Team:** 33 members

- Architected containerized infrastructure using Kubernetes, improving deployment efficiency by **65%**
- Implemented SSL/TLS infrastructure across 200+ servers ensuring **100% security compliance**
- Designed reverse proxy architecture improving application response time by **40%**
- Led offshore infrastructure operations achieving **95% first-call resolution** for P1/P2 incidents

Tech Stack: *AIX, Solaris, Windows, AWS, Kubernetes, Docker, SSL/TLS*

DevOps Infrastructure Specialist
HCL Technologies
Apr 2016 - Aug 2018

Client: Abu Dhabi Islamic Bank, UAE **Domain:** Banking & Finance

- Implemented IBM UrbanCode Deploy automation reducing deployment time from **4 hours to 30 minutes**
- Architected ESB infrastructure handling **10,000+ transactions per second**
- Designed application monitoring framework improving system observability by **85%**
- Achieved **zero-downtime deployments** for critical banking applications

Tech Stack: *Oracle WebLogic 10g, ESB, IBM UrbanCode Deploy, MySQL, PostgreSQL*

PROFESSIONAL EXPERIENCE (CONTINUED)

Systems Consultant
NIIT Technologies (Coforge Ltd)

Nov 2012 - Mar 2016

Project: Sita GSL, Virgin Australia**Team:** 15 members

- Automated build deployment via shell scripting, Power shell and by implementing Jenkins CI CD pipeline resulting in time saving o **65%**
- Implemented predictive monitoring saving **$500K annually** in operational costs.
- Carried out svn, nexus artifacts repository and jenkins integration for local artifacts generation saving 400% time when using onsite / remote setup.
- Carried out Centos OS kernel upgrades.
- Created Menu based shell scripting tools by invoking python and WLST commands for creating jms queues by Testing team which resulted in 100% reduction of such service requests in infra bucket.

Production Infrastructure Manager
JP Morgan Chase & Co.

Jan 2011 - Nov 2012

Division: Treasury and Security Services **Domain:** Banking & Finance

- Managed critical trading systems infrastructure with **99.99% uptime** requirement
- Implemented ITIL v3 processes improving change success rate to **98%**
- Designed disaster recovery procedures with **15-minute RTO** for trading systems

Tech Stack: *UNIX, Sybase, IBM WebSphere, IBM MQ, Autosys*

Middleware Technical Expert
Hewlett Packard GDIC Ltd, Bangalore .

Jul 2010 - Dec 2011

- Implemented PCI DSS compliant infrastructure achieving **100% security audit compliance**
- Optimized Global Pay Plus platform handling **$1B+ daily transactions**

Tech Stack: *Oracle WebLogic 9, IBM MQ*

Senior Subject Matter Expert Infrastructure Integration
Amdocs Development Centre India

Jul 2006 - Jun 2010

- Developed ENVMNG automation tool reducing environment setup time by **95%**
- Architected telecom infrastructure supporting **50M+ subscribers**
- Implemented comprehensive monitoring reducing system outages by **80%**

PROFESSIONAL CERTIFICATIONS

Google Certified Associate Cloud Engineer
Google Cloud (2025)
Professional Agile Leadership I (PAL I)
Scrum.org (2025)
ITIL v3 Foundation
AXELOS
Splunk Administration
Skillsoft
AWS Cloud Architecture
Percipio Learning
Pursuing Certificate course in AI ML using Python (Nov 2025 - Feb 2026)
IIT Madras

EDUCATIONAL QUALIFICATIONS

Master of Business Administration (Executive) - GPA: 2.9
Symbiosis Institute of Business Management, Pune (2010 - 2013)

Fulltime Postgraduate Graduate Diploma in Software Technology (FPGDST)
NCST (C-DAC), Kharghar, Navi Mumbai (2005 - 2006)

Bachelor of Engineering (Electronics) - 60%
Kavikulguru Institute of Technology & Science, Nagpur University (2000 - 2004)

INTERNATIONAL ASSIGNMENTS & RECOGNITION

- **UAE (Abu Dhabi):** Led DevOps automation foundation setup - HCL Technologies
- **Thailand (Bangkok):** Infrastructure architecture and client engagement - NIIT Technologies
- **Australia (Brisbane):** Infrastructure support and technical documentation - NIIT Technologies
- **United Kingdom:** Vodafone production support - Amdocs (Quarterly Performance Award received)

PERSONAL INFORMATION

Nationality: Indian **Languages:** English, Hindi, Marathi**Marital Status:** Single **US Visa:** B1/B2 (Previously held)
