PROFILE SUMMARY

Data professional with 3+ years of experience in data analysis, visualization, ETL, and data modeling. Skilled in SQL, Python, Power BI, Excel, and PySpark for transforming raw data into actionable insights and building scalable data pipelines. Passionate about leveraging analytics and engineering skills to deliver efficient, end-to-end data solutions that drive business decisions.

EDUCATION

Centre for Development of Advanced Computing (C-DAC)
Post Graduate Diploma in Big Data Analytics (PG-DBDA)

Dr. A.P.J. Abdul Kalam Technical University Lucknow, Uttar Pradesh
Bachelor of Technology in Electronics and Communication Engineering *Aug 2015 – Jun 2019*

EXPERIENCE

Data Analyst Oct 2023 – Present
Creative IT Brains Pvt. Ltd. *Noida, India*

- Leveraged data visualization techniques to present complex data in a clear and actionable manner, enabling business leaders to make strategic decisions.
- Proficient in SQL for data extraction, transformation, and analysis.
- Strong understanding of data ethics and privacy regulations, ensuring compliance and ethical data usage. Proficient in using data visualization tools such as Power Bi.
- Utilized Power BI to create interactive data dashboards for executive leadership, enabling real-time insights and informed decision-making.
- Proficient in writing complex SQL queries for data extraction using JOINs, UNIONs, and filtering conditions. Skilled in using Excel functions like VLOOKUP, XLOOKUP, INDEX, nested formulas, and conditional formatting for advanced data analysis.
- Adept at using Power Query to automate data cleaning and transformation workflows, ensuring clean and structured data for reporting.
- Executed UAT processes during system upgrade, verifying data accuracy and performance across 50+ Power BI dashboards and Excel reports to maintain reporting quality and stakeholder confidence.
- Supported process automation and data validation workflows, enhancing reporting accuracy and scalability.
- Regularly interact with stakeholders to gather requirements and deliver customized data-driven solutions. Collaborated with technical teams to develop and implement data collection and analysis system

MIS Analyst Nov 2021 – Sep 2023
Policybazaar Insurance Pvt. Ltd. *Gurugram,India*

- Automated daily and weekly MIS reporting processes using Advanced Excel, SQL, and Power BI, improving reporting accuracy and enabling real-time tracking of key sales and operational KPIs.
- Analyzed performance data for 15+ sales teams to identify trends, variances, and improvement opportunities.
- Designed and developed interactive Power BI dashboards and visual reports for leadership teams, reducing manual reporting effort by 40% and improving visibility into key business metrics..
- Ensured data quality and consistency by validating source data, monitoring discrepancies, and optimizing data workflows across multiple systems.

Senior Sales Executive Aug 2019 – Oct 2021
Policybazaar Insurance Pvt. Ltd. *Gurugram, India*

- Led a team of 10+ telesales professionals, driving sales growth through data-driven performance tracking and coaching.
- Implemented customer retention strategies, improving brand loyalty and repeat sales by 20%.
- Designed and executed sales strategies that increased cross-selling opportunities by 30%.

PROJECTS

Business 360 - E-commerce[Excel || Power BI || SQL]

-Designed a multi-view dashboard in Power BI for 6 departments (sales, finance, supply chain, executive, marketing, and products) of RCM Business to understand sales trends and facilitate data-driven decisions, which aimed to scale the business processes by 10%

-Developed and maintained dashboards using data from SAP and PostgreSQL, leading discussions with stakeholders to align on performance metrics and enhance business strategies.

Supply Chain Analysis [Python || Pandas || Matplotlib || Seaborn || NumPy || Plotly]

-Analyzed 3+ product categories to evaluate pricing, revenue, and cost impact, identifying top revenue-generating product (skincare,45%).

-Built 5+ interactive visualizations (scatter, bar, line, pie) to gain supply chain insights and optimize shipping costs.

-Monitored defect rates and transportation modes to improve quality control and efficiency.

TECHNICAL SKILLS

Programming Languages: Python (Pandas, NumPy,Pyspark), SQL

Data Visualization: Power BI, Tableau, Matplotlib, Seaborn

Databases: MySQL, PostgreSQL, SQL Server

Analytics & Reporting: KPI Dashboards, Forecasting, Business Intelligence, Storytelling with Data

Spreadsheet Tools: Excel (Pivot Tables, Power Query, DAX)

ACHIEVEMENTS & CERTIFICATIONS

"IBM Certified Data Analysis with Python" — Coursera

"SQL Beginner to Advanced for Data Professionals" — CodeBasics.io

"Get Job Ready: Power BI Data Analytics for All Levels 2.0" — CodeBasics.io

"Excel: Mother of Business Intelligence" — CodeBasics.io

"Introduction to Computers and Operating Systems and Security" — Microsoft
