Daksh Khurana

Delhi NCR, India | +91 8586870173 | khuranadaksh.dk@gmail.com | LinkedIn

PROFESSIONAL SUMMARY

Data Scientist with over 1.5 years of experience specializing in Generative AI, LLM implementation, and intelligent automation. Proven expertise in developing RAG-based architectures and deploying machine learning models that achieve 99% data integrity. Adept at leveraging Python, LangChain, and advanced NLP frameworks to solve complex business problems and optimize model performance for production environments.

TECHNICAL SKILLS

- **Generative AI & LLMs:** OpenAI (GPT-5), Gemini AI, Anthropic, Prompt Engineering, LangChain, RAG Pipelines.
- **Languages & Libraries:** Python (Pandas, NumPy, Scikit-learn, Matplotlib, Plotly), SQL (T-SQL, Athena).
- **Machine Learning:** Computer Vision (YOLO), NLP, Statistical Modeling, A/B Testing, Model Deployment.
- **Tools & Cloud:** Power BI, Tableau, MS Fabric, Azure/GCP foundations, Advanced Excel.

PROFESSIONAL EXPERIENCE

Info Edge India Ltd. (99acres) **Noida, India**
Analyst (Promoted from Associate Analyst) **Nov 2024 – Feb 2026**

- **GenAI and LLM Deployment:** Engineered a media screening service using YOLO and GPT-4 to automate data quality filtering, achieving 99% accuracy and enhancing platform integrity.
- **Intelligent Automation:** Built a tower-level validation service utilizing Gemini AI and rule-based cleaning to resolve data discrepancies and improve contextual accuracy.
- **Data Engineering Collaboration:** Partnered with engineering teams to manage and preprocess high-volume geospatial datasets, developing Python-based location intelligence services.
- **Performance Optimization:** Optimized model performance by tracking confusion matrices and AI metrics, providing data-driven technical reports for leadership decision-making.

DRDO **New Delhi, India**
Student Trainee Intern **Jan 2024 – Jun 2024**

- **Statistical Research:** Conducted deep-dive analysis on high-dimensionality reliability datasets to identify trends and improve system performance models.

Ministry of Heavy Industries (MHI) **New Delhi, India**
Data Analyst Intern **May 2023 – Jun 2023**

- **Quantitative Solution Design:** Developed ranking models for government schemes, translating complex policy requirements into manageable analytical frameworks.

KEY TECHNICAL PROJECTS

- **RAG Pipeline Foundation:** Developed a retrieval-based model using Google APIs to identify market sizing trends and track consumer population patterns for Location based recommendations.
- **Geospatial Logic Module:** Designed a logic module using sun-timing APIs to track performance benchmarks and provide high-fidelity marketing insights.

EDUCATION

Indian Institute of Technology (IIT), Madras **Jan 2023 – Dec 2023**
Foundational Degree in Data Science and | **CGPA: 9/10**

Delhi Skill and Entrepreneurship University (DSEU) **Sept 2021 – Jun 2024**
Bachelor of Science in Data Analytics | **CGPA: 9.1/10**
