SUMMARY

Highly skilled Flutter developer with over 4 years of experience in designing, developing, and maintaining mobile applications for both Android and iOS platforms. Proficient in the Dart programming language and experienced in building responsive and adaptive UI components using Flutter framework. Strong understanding of clean architecture principles and familiarity with CI/CD pipelines for mobile app deployment. Proven ability to collaborate effectively with cross-functional teams and deliver high-quality software solutions within tight deadlines.

SKILLS

- Flutter, Dart RESTful APIs
- UI/UX
- State Management (BloC, GetX)
- Firebase Crashlytics
- Flutter Clarity
- Backend Communication (Http, dio)
- SQLite
- Kotlin
- GIT/Version control, Agile, SOLID Principle
- Unit test case
- Cryptography

EXPERIENCE

Jan 2023 - Present
Software Engineer - IDEMIA

IDEMIA is a global leader in biometrics, cryptography, and secure transactions, serving over 600+ government agencies and 2,400 enterprises in 180+ countries.
At IDEMIA, I contributed to the development of secure authentication systems across three mobile applications, implementing advanced biometric solutions including face capture, fingerprint capture (POC), and scan the project using sonarqube.

Nov 2021 – Dec 2022
Flutter Developer - Tekniko Global Private Limited

Tekniko Global is a leading app development company delivering custom mobile and web solutions for startups and enterprises across domains like education, vehicle service, e-commerce, etc.

- Developed and deployed high-performance apps for Android & iOS.
- Focused on responsive UI, state management GetX, and API integration.
- Improved user engagement through intuitive design and smooth functionality.

Feb 2020 – Aug 2020

Intern - MediaCity Tech Corporation

At Media City, I contributed as a Flutter intern, gaining hands-on experience in Flutter and Dart.
Focused primarily on enhancing UI development skills while contributing to real-world Flutter apps.

- Designed and refined responsive, interactive UI components for e-learning and restaurant application.
- Assisted in RESTful API integration and basic state management using GetX.
- Supported debugging and performance improvements for smooth app rendering.

PROJECTS

Face2Login

Idemia is providing a secure authentication system to the banking system for the users by using mobile application.

Led end-to-end development, from design to deployment.

Integrated RSA encryption and Face SDK with liveness detection to prevent spoofing and ensure data security.

Android : https://play.google.com/store/search?q=face2login&c=apps&hl=en_IN

ONGCAReS

Engineered a smart card-based hospital referral system for ONGC employees and retirees.

Integrated face capture SDK with liveness detection during the enrollment process. And managing the employees medical reports and medication.

Android : https://play.google.com/store/search?q=ongcares&c=apps&hl=en_IN

IDEMIA Authenticator

Idemia authenticator app maintained a two-factor authentication (2FA) app for internal enterprise systems.

Implemented OTP generation for secure access to multiple web portals.

Ensured strong authentication and usability across different platforms.

Android : https://play.google.com/store/apps/details?id=com.idemia.authenticationapp&hl=en_IN

IOS : https://apps.apple.com/in/app/idemia-authenticator-app/id1568978312

DSL English App

Launched an educational app offering offline access to videos, doubt-solving features, e-books, and test series.

Developed using Flutter for cross-platform compatibility (Android & iOS).

Boosted user satisfaction and academic outcomes by 35% through engaging learning features like quizzes and live classes.

Android : https://play.google.com/store/search?q=dsl+english+app&c=apps&hl=en_IN

M4U (Mechanic For You)

Developed a comprehensive vehicle service app enabling users to find mechanics, schedule services, and access SOS support.

Integrated Google Maps for real-time navigation and secure payment gateways for hassle-free transactions.

Delivered a smooth user experience through intuitive UI and efficient backend integration.

EDUCATION

Aug 2017 - Sept 2021
M.L.V. Textile & Engineering College, Bhilwara
B.Tech in Information Technology

AWARDS

- Social Welfare Award - Gold
- Inter College Badminton Tournament - Gold
- Marathon 5km - Gold

CERTIFICATES

- Lean Six Sigma White Belt training - IDEMIA
- Flutter Application for Android and IOS - Udemy
- Web Development - Zeetron Private Limited

LANGUAGES

- English
- Hindi
