Fardin Shaikh

Cybersecurity Analyst

fardinshaikh231@gmail.com + 91 8097594786 Mumbai, India

https://www.linkedin.com/in/fardinshaikh-profile/

Skills

- **SIEM**: RSA Net witness, IBM QRadar, Splunk.
- **MDR/XDR**: AISAAC MDR, Microsoft Sentinel.
- **Malware Analysis/Sandboxing Tools**: Recorded Future, Virus Total.
- **Other Tools**: Vehere PCAP, GRA UEBA, XSOAR.
- **VAPT**: IPT, EPT, VA Scanning, Application Security Testing, Wi-Fi Penetration Testing
- **Microsoft Office Suite**: Microsoft Word, Microsoft Excel.

Professional Experience

SOC Analyst
Inspira (IDBI Bank), Navi Mumbai
Feb 2025 - Present

- Acting as shift lead for SOC operations, overseeing real-time alert monitoring, triaging, and incident response, while guiding junior analysts and resolving their queries. Handling ad-hoc client requests including report generation and log extraction for specific servers and security incidents.
- Evaluate logs generated by various vendor devices like F5 WAF, Guardium DAM, O365Mail Gateway, Sky high secure Proxy, Palo Alto Firewall, Linux OS, Active Directory to support incident resolution.
- Coordinated with application teams through SOC shared mailbox during incident response, providing clear explanations of security incidents, their impact, and addressing queries to ensure effective remediation.
- Designed, developed, SIEM detection rules by analyzing attack patterns, threat intelligence feeds, and analyzing real-world attack scenarios to strengthen detection capabilities.
- Performed network forensic analysis using Vehere PCAP by inspecting full packet captures to identify malicious traffic patterns.
- Investigated user activities using UEBA (GRA) to detect abnormal behavior patterns and potential insider threats.
- Analyzed threat advisories from FS-ISAC, Recorded future, and other intelligence sources and performed remediation actions such as IOC blocking and monitoring.
- Conducted IOC-driven investigations using SIEM and maintained threat intelligence feeds by uploading IOC files into SIEM to enhance detection accuracy.
- Experience in SIEM administration including log onboarding, platform health monitoring, and troubleshooting on RSA NetWitness.
- Integrated SIEM alerts with Cortex XSOAR for automated incident handling.
- Executed predefined SOAR playbooks in Cortex XSOAR to automate initial investigation of alerts such as suspicious IP activity.
- Performed incident ticket handling and case management in XSOAR, including updating investigation notes and documenting response actions.
- Conducted in-depth analysis of phishing and spam emails by inspecting headers, SPF/DKIM/DMARC results, and sender reputation using MX Toolbox.
- Provide security assurance reports, including monthly, quarterly, and annual reports to client.
- Analyze security risks and compliance failures, providing advice and managing remediation.

Junior Engineer
Atos, Navi Mumbai
Feb 2023 – Feb 2025

- Identify security alert using IBM QRadar and escalate them when necessary.
- Collaborated with Senior Analyst to ensure security incident are effectively handled and resolved.
- Detected security incidents such as brute force attacks, phishing attempts, and suspicious network activity using QRadar correlation rules.
- Utilized QRadar features such as Log Activity and Network Activity for in-depth investigation and root cause analysis.
- Integrated in-house MDR agent with AISAAC SIEM, validating log flow from endpoints and ensuring accurate event collection for detection use cases.
- Performed agent installation via direct and proxy approach, ensuring endpoint compatibility.
- Contributed to the creation of reports for senior management, providing insights into asset details of the customer.

Analyst
Capgemini, Mumbai
Sep 2022 – Dec 2022

- Monitored and maintained server performance, ensuring availability of critical infrastructure.
- Configured and managed Active Directory (AD), Domain Controllers (DC), and user access policies.
- Performed basic Linux administration, including service monitoring, log analysis, and user management.
- Handled VMware ESXi server setup and virtual machine management to support infrastructure operations.

Education

B.E in Computer Engineering
Bharat College, Thane
2019-2022

- CGPA: 7.42
- Courses: Cybersecurity, AI/ML, NLP, Python

Diploma in Information Technology
Government polytechnic, Bandra
2016 - 2019

- Percentage: 63.87%
- Courses: Networking, Cryptography, DSA

Certification

AWS Cloud Practitioner from AWS

Ethical Hacking Essentials from EC Council

Personal Details

- Nationality: Indian
- Marital Status: Single
- Languages Known: English, Hindi, Kannada.
