ABOUT ME

As a **6x Certified NetSuite Techno-Functional Lead** with over **14 years of experience**, I specialize in **architecting and delivering scalable ERP solutions** that streamline **financial and operational processes** across global organizations. I have successfully **led 50+ end-to-end NetSuite implementations** across **manufacturing** and **wholesale distribution**, covering all major modules—**Finance**, **Procure-to-Pay (P2P)**, **Order-to-Cash (O2C)**, **Record-to-Report (R2R)**, and **Taxation**—with a proven track record of enhancing efficiency through **automation**, **data integrity**, and **system integration**.

My expertise spans **solution design**, **configuration**, **SuiteFlow automation**, **integration architecture**, and **UAT/SIT leadership**, ensuring seamless deployments & strong post-go-live success. I'm passionate about building **automated, data-driven environments** using **SuiteAnalytics Workbooks**, **custom reports**, & **dashboards** to deliver **real-time financial visibility**, ensure **compliance**, & accelerate financial close cycles.

A **hands-on project leader**, I have guided **cross-functional teams** and coordinated with **global resources** to deliver projects **on time and within budget**. Skilled in **client discovery**, **solution design**, and collaborating with **Finance and Operations leaders** to build **scalable, data-driven solutions**, I also develop **dashboards, analytics, and training** that drive **user adoption**, improve **financial visibility**, and strengthen **internal controls**.

Beyond implementation, I contribute to **solution architecture, pre-sales consulting, and team mentoring**, promoting best practices and continuous improvement. My leadership in regional consulting (India, Middle East, SE Asia) has delivered measurable business outcomes—**40% client expansion and 60% revenue uplift**—through quality, collaboration, and innovation.

PROJECTS

NetSuite Implementation Projects – Oracle NetSuite | 50+ Clients Across Manufacturing and Wholesale Distribution.

CCTV Outlet | Tava Products | Winning Solution | BFFL | Elston Material | Verope | GNS | Conrad

06/2022 - Present *USA, Canada*

Tasks/Achievements

- Led end-to-end **NetSuite Financials implementations** for 50+ clients, specializing in wholesale distribution & manufacturing. Managed **financial cutover activities during go-live, customized** financial reports & dashboards, and integrated **Bank Feeds/EFT setups.**
- **Managed full-cycle project delivery** including **business analysis**, solution design, configuration, **data migration**, **UAT**, **go-live**, and post-implementation support. Designed and customized **workflows, saved searches, dashboards**, and **reports** to meet client specific KPIs.
- **Integrated NetSuite with third-party systems** such as CRM, eCommerce, and logistics platforms to enhance data flow and operational visibility. Facilitated workshops, resolved configuration issues, conducted user training, and contributed to solution architecture, proposal writing, and proof-of-concept presentations.

In-House NetSuite ERP Implementation

Vaal Triangle Systems PVT Ltd

08/2018 - 05/2022 *India*

Tasks/Achievements

- Led the successful in-house NetSuite ERP implementation, aligning system capabilities with business goals to enhance efficiency and decision-making. Oversaw the full project lifecycle —architecture, configuration, testing, training, and support—while streamlining core workflows and improving data visibility through tailored solutions and analytics.

Shopfloor Success: VPSS IoT Solution Implementation

Shin-Sung S & T (South Korea)

04/2019 - 07/2019 *South Korea*

Tasks/Achievements

- Implemented the VPSS IoT solution to enable real-time production monitoring and enhance manufacturing efficiency. Integrated SigmaTUBE with VPSS to streamline production workflows, reduce downtime, and accelerate issue detection. Improved overall equipment effectiveness and optimized production line performance through data-driven maintenance and performance insights.

Operations Optimization through Integration Projects

TTJ Holding, MTL Advanced, Arcelor Mittal, IMS, MWA

03/2018 - 04/2022 *Singapore, Malaysia, India, Netherlands, USA*

Tasks/Achievements

- Led multiple implementations and integrations of manufacturing software solutions across global clients—including SigmaNEST with FabSuite and FabTrol ERP systems (Singapore, India), web-based Nesting and Quoting solutions (USA, Netherlands), and SigmaTEK MRP with SAP integration (UK).
- Established real-time data integration and streamlined database transactions to enable end-to-end job shop tracking, material management, and production planning. Enhanced operational visibility and coordination across manufacturing, procurement, and sales functions.
- Delivered tailored dashboards and quoting tools to improve job costing accuracy and decision-making speed, while providing comprehensive documentation, user support, and troubleshooting for seamless deployments and sustained operational success.
