Gaurav Kumar Singh

Android Developer

Contact: +91-8447554705 | Gaurav.tm522@gmail.com

Professional Summary

Experienced Android Developer with 4+ years in designing and developing scalable, user-friendly mobile applications. Skilled in Kotlin, Java, MVVM, Jetpack Compose, Retrofit, Hilt, Room, and Firebase. Proven ability to deliver 10+ Play Store apps with high performance and intuitive UI. Strong expertise in REST APIs, offline storage, multimedia (camera, video, audio), and third-party SDK integrations. Adept at working in Agile/Scrum teams and ensuring clean, maintainable, and testable code.

Technical Skills

• Languages: Kotlin, Java

• Architectures: MVVM, MVP, Clean Architecture

• Frameworks & Libraries: Jetpack Compose, ViewModel, LiveData, Hilt, Coroutines, WorkManager, Retrofit, OkHttp, Glide, Picasso, Gson, Moshi

• Database & Storage: Room Database, SQLite, SharedPreferences, Firebase Database

• Cloud & Services: Firebase (Auth, Firestore, Crashlytics, Push Notification), Google Maps API

• Tools & Version Control: Android Studio, Git (GitHub, GitLab, Bitbucket), Jira, Gradle

• Other Skills: Payment Integration (RazorPay, Paytm), RESTful APIs, JSON parsing, Unit Testing (JUnit), Play Store Deployment

Professional Experience

Android Developer – Alethe Consulting Pvt Ltd (Jun 2024 – Present)

• Built enterprise-grade Android apps using MVVM + Hilt + Coroutines.

• Integrated Retrofit APIs with offline support via Room Database.

• Developed task management module with dynamic form generation from JSON.

• Enhanced app stability with Firebase Crashlytics and improved performance by 25%.

Android Developer – Amnex Infotechnology Pvt Ltd (Dec 2022 – Jan 2024)

• Designed and developed geo-mapping & crop survey apps used by government & insurance companies.

• Implemented Google Maps, polygon drawing, and geo-tagged photo/video capture.

• Built offline apps with SQLite + Room DB, ensuring data sync with APIs.

• Collaborated with cross-functional teams to deliver scalable mobile solutions.

Android Developer – Softechera Systems Pvt Ltd (Oct 2020 – Dec 2022)

• Developed healthcare and e-commerce apps with 1L+ downloads on Play Store.

• Implemented Firebase Authentication, Push Notifications, Payment Gateway (RazorPay).

• Built custom dashboards, charts, and media modules (camera, audio, video).

• Optimized app load time by 30% and improved UI responsiveness.

Education

B.Tech (Computer Science & Engineering) – J.P.I.E.T, Meerut (2018)

Projects

• CareKnots (Healthcare) – Homecare services app bridging caregivers and patients.

• CareGiver (Healthcare) – Secure & affordable homecare application.

• AllyHealth (Medical) – Doctor-patient consultation and assistance app.

• APCCE (Agriculture) – Crop-cutting estimation and agricultural info app.

• Tamimi (E-Commerce) – Grocery shopping & scheduling app.

• AgriStack / KrishiMapper (Survey Apps) – Geo-tagged photos, polygon mapping, and crop stage tracking solutions.

Achievements

• Published 10+ Android apps on Play Store with 500K+ total downloads.

• Awarded Best Developer of the Year (2023) at Amnex Infotech.

• Successfully mentored junior developers in MVVM & Clean Architecture.

• Consistently delivered projects ahead of deadlines with high client satisfaction.
