Role: **Mobile Application Developer**

Responsible for the development and improvement of mobile applications, ensuring efficient product infrastructure.

- Developed and maintained over 4 mobile applications.
- Developed apps and UI components from prototypes and wireframes.
- Integrated Firebase services to enhance the performance of apps.
- Worked on modern development processes with Git.
- Worked with Redux architecture to improve the performance of the mobile apps.

Key Projects

ULLAS

The ULLAS (Understanding of Lifelong Learning for All in Society) mobile app helps identify non-literates aged 15 and older and volunteer teachers. The app is used to perform door-to-door surveys in certain areas, and then tags non-literate and volunteer teachers for learning.

LMS

Learning Management System app for various purposes ranging from online exams and quizzes to study materials and online courses.

NIOS App

Mobile application for The National Institute of Open Schooling (NIOS).

Telelaw for Citizens

This app enables a wider base of beneficiaries to have access to legal advice from the panel lawyers directly via an application.

Telelaw for Lawyers

This application helps enhance the availability of the lawyer for enabling advice to the beneficiaries and ease their life to perform their duty under the Tele-law program.

Bhashini

Bhashini helps Indian citizens translate content into different Indian languages. This application also helps Indian citizens to effectively communicate with others who do not know their language which will help reduce the language barrier in India.

Redox

Empowering parents and students with a comprehensive school management system, facilitating seamless communication, access to academic information, and enhanced engagement in their educational journey.

CSC Grameen eStore Distributor App

The Distributor App helps Distributors Manage Inventory and sell to CSC Grameen eStores. The distributor app is exclusively for the Distributors. Distributor-CSC Grameen eStore app helps a brand to reach the unreached.

CSC Grameen eStore Customer App

CSC Grameen eStore is a nearby Online Shop. This app helps to order the nearest eStore online and get doorstep deliveries.

CSC Grameen eStore VLE App

VLE App facilitates a retailer to convert his physical shop to an online shop. VLE App is a business app for retailers to buy products from distributors and sell them to their customers online.

BLS Store

BLS is a global, technology-enabled services provider for governments and citizens. This platform offers B to B (Business to Business) services to its BLS Stores.

The SlotMan - User

A Slot booking and scheduling app where customers can book offered services.

The SlotMan - Admin

A Slot booking and scheduling tool that works 24x7 making clients' lives easier. This will allow clients to easily book appointments and decrease the use of manual and traditional booking methods.

AIPSCB

A mobile application for AIPSCB (All India Police Sports Control Board) that manages the sports management ecosystem for the AIPSCB.

Freelance Projects

Abroad Lite

An eCommerce mobile app where customers can order items that are not delivered to their location from online marketplaces such as Amazon.
