Jasveer singh

+91-9012915438
Senior SOC Analyst jassisingh229872@gmail.com
Experience: 7 Years 0 Month Gurugram, INDIA

With over 7 years of experience in the IT industry, including extensive expertise in Security Operations, Incident Response, SIEM monitoring, and security investigations, I have successfully handled high-severity security incidents and delivered actionable security insights. Skilled in SIEM engineering, log analysis, threat detection, and vulnerability assessments, I possess hands-on experience with tools such as Microsoft Sentinel, Wazuh, and CrowdStrike. Adept at incident triage, threat hunting, and cross-functional collaboration to strengthen organizational security posture.

Cyber Security | SIEM | Crowdstrike | Sentinel | SOC | Incident Management | Security Operations | SIEM Integration | Vulnerability Assessment | Incident Response | Malware Analysis | Threat Detection | Security Monitoring | Security Analysis | Threat Hunting | Phishing Email | Use-Case Development | Correlation Rule

CERTIFICATION

- ccna certified from network bulls gurogan
- SC-200
- CEHv11

WORK EXPERIENCE

Senior SOC Analyst-OculusIT **Apr 2022 - Present**

* Performed real-time security monitoring and advanced threat analysis using SIEM platforms including Seceon, Wazuh, Elastic SIEM, and Microsoft Sentinel in a 24x7 SOC environment.
* Investigated, triaged, and responded to high, medium, and low severity security incidents involving phishing, malware, ransomware, brute-force attacks, suspicious sign-ins, anomalous token activity, and APT-related threats.
* Conducted in-depth log analysis, threat hunting, and incident correlation across endpoints, firewalls, cloud platforms, Microsoft 365, and network devices to identify indicators of compromise (IOCs) and suspicious activities.
* Led incident response activities including containment, remediation coordination, root cause analysis, and preparation of detailed incident investigation reports.
* Created, customized, and tuned correlation rules, decoders, alerts, dashboards, and reports in Wazuh and SIEM platforms to improve detection coverage and reduce false positives.
* Integrated and managed multiple log sources including Windows, Linux, Cisco firewalls, routers, switches, Microsoft Defender, and cloud security solutions for centralized monitoring and visibility.
* Troubleshot SIEM ingestion, parsing, and log normalization issues to ensure reliable event collection and accurate security monitoring.
* Performed vulnerability assessments and security posture reviews using Nessus, identified critical vulnerabilities, and provided remediation recommendations to clients and internal teams.
* Worked closely with cross-functional teams and clients during security incidents to ensure timely escalation, communication, and resolution of threats.
* Assisted junior analysts in alert triage, investigation methodology, and SOC operational processes while maintaining SLA-driven incident response activities.
* Prepared weekly and monthly SOC reports highlighting incident trends, threat intelligence insights, security gaps, and recommendations for improving overall security posture.
* Applied knowledge of MITRE ATT&CK framework, network security concepts, and endpoint security tools to enhance detection engineering and incident response effectiveness.

SOC Analyst-HCL technology **Jan 2021 - Mar 2022**

Perform initial triage and analysis of security incidents to identify potential threats and suspicious activities.
Investigate alerts related to phishing, malware, brute-force attacks, unauthorized access attempts, suspicious logins, and endpoint security events.
Escalate confirmed or high-severity incidents to L2/L3 SOC analysts or Incident Response teams as per SOPs and SLAs.
Continuously monitor endpoint, firewall, antivirus, IDS/IPS, VPN, cloud, and network security logs.

Monitor email security alerts and investigate suspicious attachments, URLs, and phishing attempts.

Desktop and Network Support Engineer-Comet Innovation Pvt Ltd **Jan 2018 - Dec 2020**

- Provided desktop support and network troubleshooting for clients.
- Assisted in the setup and configuration of network devices.
- Documented support activities and maintained inventory of IT assets.

Network Engineer-GKC Management Pvt Ltd **Jan 2020 - Jul 2020**

- Managed network systems and provided technical support for network-related issues.
- Assisted in implementing network solutions to ensure compliance with security protocols.
- Conducted regular network assessments to identify vulnerabilities.

EDUCATION

B.C.A. | Computer Applications (General) **2016**
HNB Gardwal University Srinagar, Uttarakhand
