Professional Summary

Flutter Developer with 4+ years of experience specializing in mobile application development. Proven track record of solving complex problems, enhancing user experience, and delivering high-quality, scalable apps. Adept at managing full development cycles, ensuring timely and efficient project delivery.

Work Experience

KELLTON TECH SOLUTIONS LTD | Gurugram, India **Mar 2021 - Feb 2025**

- **LIC HRMS (Government Project – Life Insurance Corporation of India)**: (Jan'24- Feb '25)
  - Delivered the Recruitment Onboarding module for LIC's enterprise HRMS platform, improving automation of hiring and employee integration.
  - Completed specialized training on PeopleStrong HRMS, ensuring domain expertise and smoother implementation.
  - Collaborated with cross-functional teams to deploy a scalable government-grade solution serving thousands of employees.
- **OpenAI & Prompt Engineer Training**: (June'23- Nov'23)
  - Tracked and analyzed AI industry trends, focusing on the latest developments in **Large Language Models (LLMs)**.
  - Built prototype workflows using LangChain and integrated tools like ChatGPT to test performance.
  - Developed an Android application powered by AI APIs to measure efficiency, response time, and real-world usability.
  - Designed and documented prompt engineering techniques to improve accuracy, consistency, and output quality.
- **AMARON KONNEKT APP**: (Feb'23- May'23)
  - Built a mobile app to manage battery lifecycle, vehicle data, and maintenance schedules, reducing manual record-keeping.
  - Developed intuitive UI/UX with Flutter, improving user engagement and navigation efficiency.
  - Ensured robust app performance through extensive testing and debugging, achieving a smooth release on schedule.
- **Sasai Fintech**: (July'22- Nov'22)
  - Spearheaded the development of the social media module within a fintech super app used across multiple markets.
  - Integrated user profiles, social interactions, and content sharing features, boosting user engagement and retention.
  - Optimized codebase and enhanced app features to seamlessly support digital payments alongside social networking.
- **Comviva Qatar TM**: (April'22- Jun'22)
  - Contributed to a foreign money trading mobile app, improving accessibility and customer experience.
  - Designed and implemented the home login screen and fixed multiple UI/UX issues, enhancing usability.
  - Delivered assigned tasks ahead of deadlines with minimal supervision, showcasing adaptability and ownership.

@workin Fitness Pvt Ltd | Android Intern | Remote **Apr 2020 – June 2020**

- Completed an Android Developer internship, showcasing strong technical and analytical skills.
- Tested functionality of applications, ensuring existing requirements and new change requests were met in the Beta version.
- Created detailed test cases, executed systematic tests, and meticulously reported issues using Excel and Jira.

Competitions

Master's Union Unmute | Sojabean | Health-Tech **May 2023**

- Participated in a startup idea pitching competition, presenting a **health-tech startup** concept from ideation to go-to-market (GTM) strategy.
- Designed a compelling pitch highlighting the USP of providing smart sleeping pods & improving corporate well-being with **sleep-tracking.**
- Presented the conceptual platform, featuring **app-based** smart check-ins, comprehensive analytical dashboards on sleep analysis.
- Secured a position in the **top 5 among 80+** participating teams, earning recognition for Sojabean's potential impact on corporate well-being.
