EDUCATION

Bachelor of Science,
H.N.B Garhwal University
2019

Advance Diploma in Information Technology, *ITC Learning Group*
2019

Master of Computer Application (Pursuing),
Abdul Kalam Technical University

Technical Skills

- Automation: Bash, Python
- Tools: Burp Suite, Nmap, Metasploit, SQLmap, Nessus, Acunetix
- Security Testing: SAST, DAST (practical exposure)
- Recon: OSINT, subdomain enumeration, asset discovery

Exeuction Statement

I treat AppSec not as vulnerability listing but as a continuous mapping of how trust breaks in real product flows.

SUMMARY

Application Security Consultant and Penetration Tester with 3+ years of hands-on experience across Web, API, mobile (Android & IOS) and network environments and SAST. Skilled in identifying real-world vulnerabilities through VAPT, business logic abuse and manual exploitation techniques across complex application flows.
Experienced in securing 100+ applications across banking and enterprise environments, with strong contributions in bug bounty and VDP programs including Hall of Fame recognition and CVE credits. Proficient in automation using Bash and Python to streamline security testing and improve operational efficiency.
Currently focused on advancing expertise in cloud security, red teaming and reverse engineering to better understand modern attack techniques and evolving attack surfaces.

PROFESSIONAL EXPERIENCE

Associate Consultant, *CyberCube Services Pvt Ltd*
05/2024 – Present

- Performed Web, API, Mobile (Android & IOS) and Network VAPT across multiple client environments and SAST.
- Conducted security assessments on banking and enterprise applications to identify critical vulnerabilities and business logic flaws
- Executed ASV scans and analyzed results to ensure compliance with security standards
- Developed automation scripts using **Bash and Python**, reducing manual testing efforts and improving efficiency
- Designed and hosted internal **CTF challenges** to train and evaluate security teams
- Collaborated with teams to validate vulnerabilities and improve overall security posture
- Attended Multiple Meeting with client for walk through & scope documentation
- Participated in Cert-In Exam

Security Auditor & Penetration Tester,
Pheonix Technocyber Company
06/2023 – 03/2024

- Conducted Network Security Testing, AD Penetration testing, API Testing, Web Application Testing on-site in a banking environment as well as company environment
- Secure Testing 100+ Banking sites & Completed learning on LLMs attacks & Successfully completed 30+ projects
- Managed client relationships and delivered comprehensive security training on-site in a banking environment
- Attended Multiple Meeting with client for walk through & scope documentation

Tools and Techniques

Burp Suite, Nmap, Metasploit, SQLmap, Nessus, Acunetix, Postman, OWASP ZAP, Nuclei, Amass, Subfinder, Httpx, Gobuster, Dirsearch, Wireshark, Hydra, John, BloodHound, CrackMapExec
Scripting: Bash, Python

Publications

- Published a blog on "What I Learned from eWPTX v3" on Medium.
- Published a write-up on "Cross-Site Scripting (XSS) CVE-2023-43331" on Medium.
- Created a CTF challenge based on SSTI and XSS exploitation.

CERTIFICATION

- eWPTX v3 – eLearnSecurity
- eJPT – eLearnSecurity
- CEH v12 – EC-Council
- CRTP – Certified Red Team Professional
- CAP – Certified AppSec Practitioner

ACHIEVEMENT

- Secured **100+ web applications** across banking and enterprise environments
- Earned **multiple Hall of Fame recognitions** (Apple, NASA, US Gov, Nokia, etc.)
- Discovered and reported **CVE-2023-43331**
- Recognized by companies like **QuickHeal, LG, Julo, Thales, Drexel, Zyxel**
- Successfully delivered **30+ security testing projects**
- Designed and hosted **internal Capture The Flag (CTF)** challenges for security training

Cyber Security Researcher Intern,
Bureau of Police Research & Development
09/2022 – 11/2022

- Delivered cybersecurity awareness training to employees
- Worked on confidential security-related projects and research activities

Security Analyst Intern, *Craw Security Pvt. Ltd - Delhi*
04/02/2021 – 04/07/2021

- Performed web penetration testing on real-world and lab environments
- Identified vulnerabilities including XSS, Blind SSRF, SQL Injection, IDOR and Subdomain Takeover
- Prepared detailed vulnerability reports with mitigation strategies

SKILLS

- Application Security & VAPT
- SAST/DAST (Checkmarx,synck,Semgrep Burp Suite)
- Software Composition Analysis
- Red Teaming, Phishing & Social Engineering
- Firewall, WAF & Network Device Review
- OSINT Recon & Attack Surface Management
- Mobile Android/iOS
- Thick Client Penetesting
- Secure SDLC & Security
- Container Security (Configuration Review and Runtime checks)
- Web LLM Attacks
- Network VAPT
- Active Directory Pentesting
- Azure AD Pentesting
- AWS S3 misconfiguration Reviews
