LOVE PRATAP

Network Penetration Tester | Cyber Security Analyst

lovepratap2002@gmail.com | +91 9982310998 Gurugram, Haryana | linkedin.com/in/love-pratap-aa9a81192

PROFESSIONAL PROFILE

Dedicated Cyber Security Analyst and Network Penetration Tester with extensive experience in identifying and exploiting security weaknesses across complex infrastructure environments. Expert in VAPT for Web, Mobile, and Networks, with a deep understanding of network protocols and architectures. Proven ability to utilize industry-standard exploitation tools to strengthen organizational security posture and remediate critical vulnerabilities.

WORK EXPERIENCE

Security Engineer

Nov 2025 – May 2026

Cachelabs LLP, Delhi

- Conduct end-to-end network penetration testing and vulnerability assessments to identify and exploit latent infrastructure weaknesses.
- Utilize tools such as Nmap, Nessus, Metasploit, Burp Suite, and Wireshark for deep-dive traffic analysis and vulnerability exploitation.
- Collaborate with cross-functional teams to remediate high-impact security findings and implement long-term security hardening strategies.
- Configured and audited email authentication protocols (DMARC, SPF, DKIM) to eliminate phishing and spoofing vectors.
- Managed centralized endpoint administration and patch management using ManageEngine Endpoint Central, ensuring zero-day vulnerability mitigation across the organization.
- Prepared comprehensive VAPT reports featuring Proof of Concept (PoC) and actionable mitigation roadmaps for stakeholders.

Cyber Security Analyst

Sep 2023 – Oct 2025

Swadesh Systems Pvt Ltd, Delhi

- Led vulnerability assessments for network segments and web/mobile applications, effectively reducing the organizational attack surface.
- Simulated real-world attack vectors through internal and external infrastructure penetration tests to validate existing security controls.
- Monitored and investigated security incidents using SIEM and EDR platforms (Sumo Logic, SentinelOne) for rapid threat detection and response.
- Optimized detection accuracy by 30% through the fine-tuning of correlation logic and alert rules based on emerging threat intelligence.
- Performed deep-packet log analysis and traffic monitoring to identify and investigate phishing and malware campaigns.

TECHNICAL SKILLS

Penetration Testing:	Network VAPT, Infrastructure Exploitation, Web & API Security, Red Teaming, Vulnerability Scanning.
Tools:	Nmap, Nessus, Metasploit, Burp Suite, Wireshark, OWASP ZAP, Acunetix, SQLmap, Kali Linux, Nikto.
Monitoring & DFIR:	SIEM (Sumo Logic, SentinelOne), SOC Operations, Log Analysis, Threat Hunting, FTK Imager.

Networking & Protocols: TCP/IP, HTTP Security Headers, SSL/TLS, DMARC, SPF, DKIM, Network Architecture Auditing.

CERTIFICATIONS

Certified Ethical Hacker (CEHv13) (Oct 2025 – Nov 2026)
Machine Learning with Python (Jul 2021 – Aug 2021)

EDUCATION

Bachelor of Technology, Electronics & Communication

Jul 2019 – Aug 2023

Engineering College Ajmer, Rajasthan
