MOGALLA VASAVI

Email: vasavim06@gmail.com | **Phone:** +91-94914-24316
Location: Gurugram, Haryana, India

OBJECTIVE

Experienced IT professional with **4+ years of combined expertise** in **Security Operations (3+ years)** and **SAP ABAP development (1 year)**. Skilled in real-time threat monitoring, incident investigation, log analysis, and secure coding practices. Seeking a cybersecurity role to strengthen defence, enhance security posture, and support organizational objectives through proactive risk mitigation and continuous improvement.

PROFESSIONAL EXPERIENCE

Security Consultant (SOC)

Capgemini Technology Services India Limited
Oct 2022 – Present | Gurugram

TECHNICAL SKILLS

Security & Monitoring:
SIEM (Splunk, Qradar, ArcSight), EDR Tools, Security Event Monitoring, Vulnerability Management, Incident Response, Log Analysis.

Operations:
SOC Operations, Ticketing Tools, Knowledge Base Documentation

Programming:
SAP ABAP

SOC Analyst (L1)

Oct 2022 – Current | Gurugram

Key Responsibilities:

- Monitor and analyse security events in a 24×7 SOC environment.
- Investigate real-time alerts to identify true positive threats and minimize false positives using Splunk, Qradar, ArcSight.
- Conduct malware and threat analysis to support prompt incident response.
- Operate SIEM (Splunk) and Endpoint Detection & Response (EDR) systems for continuous security monitoring.
- Create, update, and resolve tickets through standardized incident management platforms.
- Identify vulnerabilities by reviewing log data and network traffic patterns.
- Prepare knowledge base documentation for incident resolution, change requests, and system improvements.
- Participate in cyber threat intelligence operations, including IOC collection and threat actor tracking.
- Perform phishing analysis, infrastructure threat monitoring, and unauthorized access investigations.
- Collaborate with stakeholders to implement security improvements and fine-tune detection rules.

SAP ABAP Analyst

Oct 2021 – Oct 2022 | Chennai

Key Responsibilities:

- Designed and developed custom reports, smart forms, and system enhancements using SAP ABAP.
- Translated business requirements into clear and effective technical specifications.
- Debugged and optimized existing ABAP code to improve performance and reliability.
- Liaised with functional and business teams to ensure high-quality deliverables.
- Provided production support for ABAP development and resolved technical issues.
