PROFESSIONAL SUMMARY

- **Business Process Automation:** Successfully **automated critical business flows**, resulting in a **40% reduction** in execution time.
- **Custom Object Development:** Designed and implemented a **'Project Tracker' custom object**, leading to a **20% reduction** in manual data entry and a **30% improvement** in project data accuracy.
- **Support Workflow Optimization:** Implemented **'Email to Case'** functionality, achieving a **40% reduction** in case processing time and a **25% increase** in support team productivity.
- **Sales & Marketing Integration:** Integrated **marketing automation tools** with Salesforce to build a **total lead and revenue tracking system**.
- **Enterprise Administration & Development:** Extensive experience in **Salesforce administration**, **Apex development**, and **data integrity management** for **large-scale user bases**.
- **Platform Configuration & Customization:** Expert in configuring and managing **custom fields**, **validations**, **workflows**, **triggers**, **objects**, **relationships**, **permissions**, **dashboards**, and **reports**.
- **Certifications:** Certified in Salesforce Platform Developer I (DEV 401), Salesforce Administrator (ADM 201), Flosum, Copado, Salesforce AI Associate, and Service Cloud Engineering.
- **Key Projects & Contributions:** Delivered multiple **Salesforce solutions** including a scalable **Experience Cloud** platform for CSM request management, a jurisdiction-based **data retention framework** using **Apex** and **Batch Jobs** for regulatory compliance, automated **Email-to-Case workflows** tailored for RDD and CSOV teams, and a centralized **Vendor Management Repository** with custom objects and flows to streamline vendor data migration and resource planning.

TECHNICAL SKILLS

Salesforce CRM | Sales Cloud | Service Cloud | Apex | Visualforce | Lightning | Salesforce Customization | SQL | Salesforce Configuration | JavaScript | HTML | CSS | Microsoft Excel

WORK EXPERIENCE

Senior Analyst - Process Management & Development

LSEG (London Stock Exchange Group) *(Mar 2022 - Present)*

- Engineered automated batch jobs for five critical business processes, significantly enhancing **system efficiency**, **scalability**, and **responsiveness**.
- Developed and deployed the custom **'Project Tracker'** object, resulting in streamlined **project data management** and improved **data accuracy** across departments.
- Designed and delivered dynamic **dashboards and reports** for project managers and executives, enabling **data-driven decision-making** and real-time **project visibility**.
- Optimized case management workflows, minimizing **operational errors**, eliminating **missed cases**, and elevating overall **customer support performance**.
- Automated the new user onboarding process, reducing **manual effort**, accelerating **onboarding timelines**, and improving **resource allocation efficiency**.
- **Designed and led the implementation of a scalable Salesforce Experience Cloud application** (SAM Communication Platform) to optimize CSM request management, enhancing collaboration, automating workflows with Apex, Aura, and Flows, and enabling secure guest user access.
- **Developed and deployed a jurisdiction-based data retention automation system** in Salesforce to ensure compliance and protect sensitive information, leveraging Custom Metadata Types, Batch Apex, and Scheduled Jobs.
- **Engineered and launched a robust Email-to-Case automation solution** for the RDD CMT Team, utilizing Apex triggers, custom classes, and response rules to improve case accuracy, auto-responses, and internal process efficiency.
- **Delivered a tailored Email-to-Case system for the CSOV team**, incorporating custom Apex logic, CSOV-specific field layouts, and real-time task assignment to streamline case intake, boost tracking accuracy, and support team productivity.
- **Built a centralized Vendor Management Repository on Salesforce**, creating custom objects, flows, and permission sets to migrate vendor data from legacy systems, manage jurisdictional mapping, and optimize project assignment planning.

Achievements:

- Achieved a **40% reduction in execution time** by converting complex business workflows into scheduled batch jobs.
- Enhanced **project data accuracy by 30%** and reduced **manual data entry by 20%** through implementation of the 'Project Tracker' custom object.
- Increased **support team productivity by 25%** by streamlining case handling processes with the 'Email to Case' functionality.
- Decreased **case processing time by 40%** through automation and optimization of Email-to-Case workflows.

Salesforce Administrator and Developer

Tata Consultancy Services *(Mar 2017 - Mar 2022)*

- Managed **Salesforce administration**, **Apex development**, and **data integrity** for a user base of **500**.
- Developed a **Force.com application** linking CRM contacts to **affluent individuals**, enhancing **networking capabilities**.
- Integrated **marketing automation tools** with Salesforce to establish a comprehensive **lead and revenue tracking system**.
- Designed and maintained **custom fields**, **validations**, **workflows**, **triggers**, **objects**, and **relationships** within the CRM.
- Oversaw management of **user permissions**, **dashboards**, **reporting**, **sales processes**, **campaigns**, **record types**, and **applications**.

Salesforce Deployment

Tata Consultancy Services *(Mar 2016 - Mar 2017)*

- Executed end-to-end **Salesforce deployments**, including **configuration**, **customization**, and **data migration**.
- Integrated Salesforce with external systems to enable **seamless data flow** and enhance **operational efficiency**.
- Ensured **system stability and scalability** by applying **Salesforce best practices** and collaborating with **cross-functional teams** on successful project delivery.

ACHIEVEMENTS

- Awarded the **Stakeholder Appreciation Award** by **London Stock Exchange Group** on **October 17, 2022**.
- Received the **Team Expo Award** from **London Stock Exchange Group** on **June 10, 2022**.
