Projects

Senraa (https://senraa.com/) | *Augmented Reality based fashion try-on platform* sept 2025 – Present

- Developed and maintained a **fashion-based web platform** allowing users to explore and purchase trendy outfits.
- Integrated **Augmented Reality (AR)** feature enabling users to virtually try on clothes and see themselves wearing outfits without physically trying them.
- Implemented **responsive UI** using React.js and Tailwind CSS for improved user experience.
- Built backend APIs with Node.js and Express.js for user authentication, product management, and order processing.
- Optimized performance for fast load times and better scalability.

Bewakoof.com Clone | *A clone of the popular Bewakoof.com online clothing store, using ReactJs.* Oct 2023

- User Authentication : verification with **JWT** to ensure user data **privacy** and **security**.
- Product **SEARCHING** and **FILTERING** on the basis of price, brand, color and text.
- API-Driven Functionality : All data is handled dynamically using **APIs**.
