Agnivesh Singh

Digital Product Manager

(+91) 9820594989 | agniveshkumar1@gmail.com | Mumbai

Dynamic and results-driven Digital Product Manager with a robust background in the banking and financial services industry, targeting to leverage extensive expertise in product management and digital transformation to drive innovation and enhance operational efficiency in a progressive organization.

Education

Master of Business Administration (MBA) / PGDM – Finance
N. L. Dalmia Institute of Management Studies and Research, Mumbai
2019 – 2021

Bachelor of Technology (B.Tech) – Computer Science and Engineering
Thakur College of Engineering and Technology, Kandivali, Mumbai
2011 – 2016

Core Competencies

- Digital Transformation
- Customer Experience Optimization
- Financial Product Development
- Regulatory Compliance Frameworks
- Risk Assessment and Management
- Process Improvement
- Stakeholder Engagement
- Cross-Functional Team Collaboration
- Data-Driven Decision Making
- Strategic Planning and Execution

Profile Summary

- **Digital Product Leadership in BFSI:** Digital Product Manager with over **7 years of experience** in Banking and Financial Services, specializing in **digital lending platforms, product strategy, and execution** across Microfinance, Personal Loans, and Home Loans.
- **End-to-End Product Lifecycle Ownership**: Extensive experience managing the **complete product lifecycle**—requirement gathering, BRD/FSD preparation, solution design, roadmap ownership, UAT governance, and production roll-out—ensuring timely and high-quality product delivery.
- **Lending Platforms & Domain Expertise:** Strong functional expertise in **Loan Origination Systems (LOS), Loan Management Systems (LMS), BRE, collections, payments, and UPI integrations**, with hands-on involvement in both greenfield implementations and system enhancements.
- **Large-Scale Digital Transformation Initiatives:** Led the **end-to-end implementation of the MFI customer journey**, improving process efficiency by **30%**, reducing loan processing time by **20%**, increasing loan disbursement volumes by **15%**, and improving customer satisfaction by **25%**.
- **Payments & Collections Modernization:** Transformed manual collection processes by introducing **BBPS and QR-based payment systems**, considerably reducing ground-level manual effort, lowering hiring costs for collection staff, and improving customer payment convenience.
- **API Integrations & Automation Enablement:** Drove **API-led integrations** with EPFO, payment gateways, employer verification systems, bank statement analysis tools, and banking partners, resulting in reduced manual intervention and faster credit and disbursement decisioning.
- **Straight-Through Processing & Cost Optimization:** Enabled **one-click disbursements and e-signing workflow**, eliminating physical document storage requirements, reducing turnaround time, and enabling direct, real-time disbursements to customer bank accounts.
- **Stakeholder & Team Leadership**: Successfully led and mentored teams of **up to 5 members** (UAT analysts and junior BAs), while acting as a critical liaison between business, technology, compliance, and vendor stakeholders to ensure alignment and delivery excellence.
- **Data-Driven & Compliance-Focused Product Delivery**: Showcased strong command over **regulatory compliance, risk management, and data-driven decision-making**, leveraging analytics and user feedback to enhance product adoption, engagement, and operational efficiency.

Work Experience

Digital Product Manager
Piramal Capital & Housing Finance (PCHF)
Mar 2024 – Present
Responsibilities:

- **Enterprise Lending Platform Leadership:** Leading product analysis and delivery for LOS, LMS, BRE, and mobile applications across Microfinance, Personal Loans, and Home Loans portfolios.
- **End-to-End Product Ownership:** Owning the full lifecycle from requirement gathering and BRD/FSD creation to solution validation, UAT coordination, and production readiness.
- **Stakeholder & Process Optimization:** Partnering with business, technology, and operations stakeholders to streamline lending workflow, improve system efficiency, and reduce manual interventions.
- **Quality & Delivery Assurance:** Validating functional and technical designs, managing UAT cycles, managing defect resolution, and ensuring timely, high-quality releases aligned with business goals.

Technical Skills

- **Documentation & Analysis:** BRD, FSD, Requirement Gathering
- **Lending Systems:** LOS (Loan Origination System), LMS (Loan Management System)
- **Lending Domain Expertise:** Lending, Retail Lending, Loan Origination, Loan Management, Collections
- **Delivery & Execution:** Project Management
- **Data & Querying:** Basic SQL

Certification

Machine Learning| K2 Analytics

Product Manager
Axis Bank
Dec 2023 – Mar 2024
Responsibilities:

- **Personal Loan Systems Enhancement:** Managed enhancements for **Personal Loan LOS applications**, driving improvements in system performance and user experience.
- **Business Analysis & Documentation:** Led **requirement gathering**, prepared BRDs/FSDs, and translated business needs into clear functional solutions.
- **UAT & Release Support:** Planned and executed UAT cycles, coordinated defect resolution, and supported smooth production rollouts in collaboration with business users and technology teams.

Business Analyst
JM Financial Home Loans
Aug 2022 – Dec 2023
Responsibilities:

- **Multi-System Lending Expertise:** Led BA activities across **LOS, LMS, BRE, Customer Portals, Collections, and Mobile Applications** for Home Loan products.
- **Process & Journey Design:** Captured and documented end-to-end home loan business processes, ensuring regulatory compliance and operational efficiency.
- **Delivery & Testing Governance:** Authored BRDs and user stories, reviewed functional specifications, and managed UAT execution to ensure solution accuracy and stability.

Business Analyst
Indostar Capital
Mar 2021 – Jun 2022
Responsibilities:

- **Requirements & Testing Ownership:** Gathered business requirements, prepared BRDs, and supported **UAT planning and execution** for lending and operational systems.
- **Cross-Functional Coordination:** Acted as a bridge between business and technology teams to ensure timely delivery and alignment with functional expectations.

Software Engineer
Accenture
Dec 2016 – Dec 2018
Responsibilities:

- **Data Engineering & ML Support:** Performed data preprocessing for machine learning models, including data extraction via APIs and SQL-based data handling.
- **Enterprise Tooling & Deployment:** Worked on **SAP CPS** for job deployment, dependency management, and production releases.
- **Operational Data Management:** Supported data backups, job scheduling, and release activities to ensure data reliability and continuity.

Projects

Complete MFI Journey Implementation

- Executed the end-to-end implementation of the Microfinance customer journey within a five-month timeline, improving process efficiency by **30%** and customer satisfaction by **25%**.
- Optimized critical journey touchpoints, reducing loan processing time by **20%** and increasing loan disbursement volumes by **15%**.
- Collaborated cross-functionally to deliver scalable, compliant solutions, driving a **40% improvement in operational workflow**.

Personal Loan Journey Implementation

- Delivered the end-to-end Personal Loan digital journey within **three months**, improving customer onboarding efficiency by **25%** through automation and streamlined processes.
- Designed user-centric workflow that increased loan approval rates by **15%** while enhancing overall customer experience.
- Partnered with product, engineering, and compliance teams to ensure regulatory adherence and reduce time-to-market by **20%**.

Collection App Enhancement

- Led enhancements to the Collection Application over a **four-month period**, increasing user engagement by **25%** and reducing processing time by **15%**.
- Implemented UI, functional, and back-end optimizations, improving transaction accuracy and system reliability by **20%**.
- Delivered milestones ahead of schedule through strong cross-functional coordination, achieving a **30% improvement in project delivery efficiency**.
