SUMMARY

AIML/Python with 3+ years of experience in web applications, proficient in Django and Flask frameworks, and skilled in Machine Learning,data analysis and visualization using NumPy, Pandas, and Matplotlib. Proven ability to build scalable, high-performance applications and optimize code for efficiency.

Education

Galgotias University *Aug,2023-July,2025*
Master of Computer Application
- GPA:7.6/10

Netaji Subhas University *Aug,2020-July,2023*
Bachelor of Computer Application
- GPA:7.8/10

Experience

ML Engineer *Remote*
Gatepax AI-Healthcare detection *Feb 2025 – July-2025*
- Leading the development of AI model with the team for health management.
- Design, develop, and implement machine learning and deep learning models using algorithms like linear regression, decision trees, and neural networks for data-driven solutions.
- Integrated iChat with Spotlight Search by creating a tool to extract metadata from saved chat transcripts and provide metadata to a system-wide search database
- Created a real-time monitoring and evaluating mecchanism for LLM agents, accuracy by 17 percent.
- Implemented the raw data from WHO and helped to fetch prediction accuracy by 21 percent.

Python Developer / ML Engineer *Ghaziabad,Uttar Pradesh*
ConsultIT Technologies Pvt Ltd.-Goldeneye *August 2022 – Jan 2025*
- Maintained large scale AI models to train the bot for the wealth management for the organisation.
- Designed robust,scalable,secure web-based applications to ensure the continuity of all the business process and client satisfaction.
- Used the python and django to develop web based data retrieval system.
- develpoed web appliactions backend components while communicating with 21+ clients to identify their needs /goals and work on meeting them.
- Worked on the improvemnt of data protection and security , increasing security rate bt 24 percent while creating new user information solutions.
- Develop and maintain AI/ML solutions using programming languages like Python, Java, and JavaScript, leveraging their libraries and frameworks for optimal performance.

Technologies

Languages: Html, Css , Java , Python , JavaScript

DeepLearning AI: ANNs, CNNs ,RNNs ,GANs,LLM,Transfer Learning,MLP

Libraries/Frameworks: PyTorch,Langchain,Numpy,scikit-learn,TensorFlow,Pandas,Matplotlib,Scilab,NLP

Databases: SQL,NoSQL,MongoDB,VectorDB

CERTIFICATIONS

DATA SCIENCE- UDEMY(KRISH NAIK)
