# ASHUTOSH SAHU

## Quality Assurance Automation Engineer

I am a Quality Assurance Analyst with more than 5 years of experience in the field. I have an eye for detail and a commitment to quality which has enabled me to detect and fix any issues before they become critical. My experience with automation testing and manual testing has helped me develop great problem-solving skills. I am adept at working in both Agile and Waterfall methodologies. I have also implemented best practices to ensure that the software is released on time with the highest quality. My best qualities include strong analytical skills, attention to detail, excellent communication, and an ability to work independently or in teams.

## WORK EXPERIENCES

### Beesolvertechnologies Pvt Ltd

February 2023 - May 2025

**Quality Analyst**

- Designed and developed automated test scripts using Python and the Robot Framework to validate functional and regression testing of web applications.
- Integrated Robot Framework with Jenkins for continuous integration and continuous testing, enabling efficient and scalable test execution.
- Developed custom Python libraries to extend the functionality of Robot Framework, enhancing reusability and improving test execution efficiency.
- Collaborated with development teams to identify automation opportunities, improve testing processes, and reduce manual intervention in the testing cycle.
- Used version control tools like Git to maintain and manage test scripts and automated workflows.
- Generated detailed reports and logs to identify and resolve defects, ensuring higher quality releases and faster delivery timelines.

### Voxwill Technologies Pvt Ltd

August 2019 - January 2023

**QA Automation Engineer**

As a QA Automation Engineer at Voxwill Technologies Pvt Ltd, I was responsible for ensuring the quality and functionality of our software products through automation testing. I collaborated with cross-functional teams to identify and prioritize test cases, develop test scripts, and execute automated tests to detect bugs and defects.

- Developed and executed automated **test scripts**
- Collaborated with cross-functional teams
- Identified and prioritized test cases
- Detected bugs and defects through automation testing
- Improved overall software quality
- Ensured timely delivery of high-quality products
- Utilized various automation tools and frameworks

## EDUCATION

- **BPUT,ODISHA (B-Tech) 2009-2013**

  Completed **Civil Engineering**

## SKILLS

- Python — Expert
- Robot Framework — Expert
- Hybrid framework — Expert
- Regression Testing, — Expert
- Functionally Testing — Expert
- Core Java — Expert
- TestNG — Expert
- Maven — Expert
- Manual Testing — Expert
- Amazon Work Space — Expert
- Git — Expert
- Dev azure — Expert
- Jira — Expert
- API Testing — Basic
- Selenium — Expert
- SQL — Basic
- PyTest — Expert
