Professional Summary

UI/UX Designer with 3+ years of experience designing intuitive, scalable digital products. Skilled in user-centered design, modern design systems, and creating Agentic AI-driven experiences that deliver seamless, intelligent user flows. Passionate about blending design, AI innovation, and usability to drive business impact and enhance digital experiences.

Work Experience

Clarivate, Noida | UI / UX DESIGNER | July 2025 - Present

- Design and optimize new patent filing applications and workflows, focusing on intuitive interaction, usability, and overall desirability.
- Collaborate with product and engineering teams to translate complex business goals into scalable, user-centered design systems.
- Lead stakeholder and user research to uncover pain points, improve usability, and streamline patent filing journeys.
- Conduct end-to-end usability testing and iterative prototyping to validate design decisions and enhance user satisfaction.
- Drive the UI/UX for an Agentic AI-powered patent filing platform, integrating automation, predictive insights, and conversational UX to revolutionize the digital IP experience.

Zensar Technologies, Pune | UI / UX DESIGNER | July 2022 - July 2025

- Led the creation of a scalable enterprise design system, boosting UI consistency and development speed by 40%.
- Designed intuitive dashboards (e.g., Power BI for U.S. clients), streamlining data interpretation and executive decision-making.
- Partnered with PMs, QA, and developers to align UX outcomes with technical feasibility and business KPIs.
- Delivered cross-platform user flows and prototypes that met WCAG accessibility standards.
- Conducted iterative usability and A/B testing, increasing task completion rate by 30%.
- Championed agile design sprints to accelerate delivery and reduce feedback loops by 50%.

HOP Electric, Jaipur | UI / UX DESIGNER INTERN | May 2022 - July 2022

- Designed and launched a responsive EV booking site, increasing pre-bookings by 25% within one month.
- Developed interactive configurators and 3D visualizations, improving user engagement by 20%.
- Led user research and usability testing that reduced navigation bounce rates by 15%.
- Delivered pixel-perfect interfaces under a 2-month deadline, earning praise from leadership.

Skills

Design Tools
