## Summary

Instrumentation Engineer with over 4 years & 8 months of an experience in the field of project designing, erection and commissioning, as well as operation and maintenance of plants. Ability to work independently. Self-motivated with the ability to manage changing priorities.

## Experience

**Kripalaney associates & engineer(Nuclear Power Corporation India Limited))**
Instrumentation Designer engineer
**2023-07-24 -**

*Design, develop, and implement instrumentation systems for various industrial processes, ensuring compliance with industry standards and regulations. *Create detailed technical documentation, including design specifications, engineering drawings, and operating procedures, to support the manufacturing and installation processes. *Software used- Prodok

**ZEECO INDIA PVT. LTD.**
Instrumentation Engineer
**2022-04-03 - 2023-07-15**

* Working as a Instrumentation engineer in Vapor Recovery System, with Zeeco India Pvt. ltd. * Installation, calibration, troubleshooting, and loop checking of the field instruments. * Vapor recovery Unit Operation & maintenance. * Maintenance of statics/ rotary equipment, instruments, PLC/VFD panel, XEFD analyzer. * Maintain daily product recovery and Spare consumption record. * Experienced in erection & commissioning activity of VRU system. * Reviewing the project related documents such as Engineering specifications, * Instrument index, cable schedules, Cable Tray Layout, JB schedules. * Laying of control, signal, and OFC cables.

**GAIL INDIA LIMITED**
Graduate Apprentice Trainee
**2021-03-30 - 2022-03-29**

* Worked as Graduate Apprentice Trainee in Instrumentation Department, with GAIL(INDIA) LTD. at Dabhol base. * Calibration and loop checking of field instruments. * Monitor and control the gas plant operation through SCADA. * Gas chromatograph calibration & validation * Speed of sound(SOS) validation of Flow computer. * prepared daily report & Daily log record of cylinders Pressure.

**H2O management services (Perrigo Laboratories Pvt. Ltd.)**
RO plant supervisor
**2020-01-31 - 2020-06-15**

* Worked as a RO plant supervisor in H2O management services. Working side – Perrigo Laboratories India Private Limited (Ambernath) * RO plant operation & maintenance

**Tangent Engineering (Perrigo Laboratories Pvt. Ltd.)**
Junior Engineer
**2018-05-07- 2020-01-30**

* Worked as a Junior Engineer in Project and Engineering Department, With Tangent Engineering * RO plant & HVAC operation & Maintenance * Spray ball validation of SS Tanks * Commissioning of MBR plant. * Pharma machineries & equipment maintenance.
