- Managed a portfolio of over 50 disaster recovery projects annually, demonstrating extensive expertise and commitment
- Improved customer satisfaction score by 25%, ensuring seamless and reliable DR solutions across various platforms
- Oversaw a budget annually, maintaining efficient allocation and resource utilization across projects
- Reduced incident response time by 50% by implementing advanced alert systems and optimizing resource allocation

STRENGTHS

IT Disaster Recovery & Business Continuity
Adept in IT Disaster Recovery and Business Continuity, ensuring operational resilience

DR Strategy & Testing Excellence
Expert in designing and performing disaster recovery strategy testing

Incident Response & Compliance
Skilled in incident response and regulatory compliance

Technical Proficiency in IT Infrastructure
Proficient in optimizing IT infrastructures for disaster recovery

Comprehensive DR Documentation
Experienced in documentation for disaster recovery processes

KEY ACHIEVEMENTS

Disaster Recovery Excellence
Successfully designed and implemented comprehensive Disaster Recovery frameworks for various clients, ensuring business continuity during critical incidents

Enhanced Downtime Efficiency
Led annual DR exercises, reducing downtime by 40% across all critical applications.

Achieved ISO Compliance
Implemented DR frameworks, achieving 100% compliance with ISO 27001 standards.

Exceptional Project Management
Managed portfolio of 50= DR projects annually, maintaining 100% project completion rate.

Optimized Recovery Strategies
Developed IT DR strategies, reducing recovery time by 30%, saving costs significantly.

Recovery Time Reduction
Reduced recovery time by 30%, improving efficiency and minimizing downtime costs significantly.

Project Portfolio Management
Managed 50= disaster recovery projects annually, demonstrating extensive expertise and commitment.

Disaster Recovery Coordination
Coordinated 100% successful annual and quarterly

EXPERIENCE
