SUMMARY

Detail-oriented, specializing in PLCs, industrial automation, and IoT-based solutions. Strong in project management, system optimization and delivers efficient, high-quality engineering solutions.

EXPERIENCE

Senior Engineer in Customer Support and Service

Ambetronics Engineers Pvt. Ltd

09/2021 - Present Andheri

Engineering company specializing in automation solutions

- Managing a team of 10-12 service engineers (Frontend & Backend) for system installations, maintenance, reports, service & support
- Planning engineers' schedules
- Project initiation & site coordination
- Performed system/software qualification (IQ, DQ, OQ, PQ) and Validation
- Cold storage Validation
- Customer service & support
- MQTT-based IoT device installation & configuration

Maintenance & Service Engineer

Amit Engineering & Construction Works

10/2019 - 08/2021 Sewree

Company engaged in engineering and construction services

- Managed control room operations and engineering maintenance ensuring safety protocols and operational standards
- Performing timely maintenance and service activity for the automation equipments
- Led test bench projects for product pipeline and valve testing to improve operational efficiency and safety compliance

Graduate Apprentice

Bharat Petroleum Corp. Ltd

09/2018 - 08/2019 Sewree

Leading oil and gas company

Automation Engineer

Ecosys Efficiencies Pvt. Ltd

08/2016 - 08/2018 Goregaon

Company focused on automation engineering

- PLC and HMI programming, control panel design, and wiring
- Installation and commissioning of PLC panels, servo, and VFD drives
- End to End project Execution

EDUCATION

Bachelor of Engineering

Vidyavardhini's College of Engg & Tech

05/2011 - 04/2016 Vasai

STRENGTHS

Project Management & Automation

Skilled in managing and executing complex automation projects with a strong focus on quality and customer satisfaction

Technical Support Expertise

Experienced in troubleshooting and providing technical support to maximize system efficiency

KEY ACHIEVEMENTS

Quality Assurance in Cold Storage Systems

Successfully led the qualification and validation process for cold storage systems providing enhanced efficiency and reliability

SKILLS

AutoCAD | Control Panel Designing | Instrumentation | IoT Solutions | PLC-HMI Programming | Documentation | Validation | Project and Team Management

PROJECTS

Water Management System

- PLC-HMI based system to manage water distribution effectively

Radioactive Waste Management System

- PLC-HMI based nuclear waste management System for Nuclear Medicine Department at Indian Navy Hospital

Monitoring System

- Temperature and Humidity Monitoring and Data Logging System with Cloud Integration of Cold Storage
