Objective

Process Engineer with 3+ years of experience in manufacturing process optimization, Lean implementation, OEE monitoring, and data-driven performance improvement. Experienced in Kaizen facilitation, TPM execution, Root Cause Analysis (5 Why, Fishbone, Pareto), KPI development, audit preparation, and SOP standardization. Six Sigma certified professional focused on productivity enhancement, waste reduction, and cross-functional collaboration.

Experience

- **MT&T** 10/Mar/2024 - Present
  Product Engineer
  1. Leading Kaizen & TPM initiatives to improve productivity and reduce downtime.
  2. Conducting time studies and workflow optimization to improve process efficiency.
  3. Preparing SOPs and standardizing processes to reduce variation and errors.
  4. Supporting internal audits and compliance documentation activities.
  5. Preparing production & performance reports for management review.

- **Connectwell Industry** 10/10/2022 - 10/03/2024
  Junior Engineer
  1. Facilitated continuous improvement initiatives and Kaizen events.
  2. Conducted Root Cause Analysis to reduce recurring defects and improve quality.
  3. Monitored and improved OEE by analyzing major downtime losses.
  4. Conducted 5S audits and improved shop-floor discipline.
  5.Developed KPI tracking formats and monthly performance reports.

Education

- **Mumbai University** 2022
  Bachlors of engineering(Mechanical)
  8.31 Cgpi

Skills

- Lean Manufacturing & Continuous Improvement
- Root Cause Analysis & Problem Solving
- OEE Calculation & Loss Analysis (16 Losses)
- Process Audit & Compliance Support
- Risk Assessment & Corrective Actions
- SOP Preparation & Time Study
- MS Excel (Advanced), MS Office, SolidWorks, AutoCAD

Certificates

- 1. Safety Training Certification
  2. Rapid Prototyping – 5 Days Training Program
  3. Basic Automobile Engineering Course
  4. Basic Electrical Training
  5. MSCIT Certification
