PRATEEK KUMAR DUBEY

Business Transformation & Process Excellence Leader
+91-9511118236 | Prateek7348@gmail.com | linkedin.com/in/prateek-dubey-0a910214b

EXECUTIVE PROFILE

Strategic and process-oriented leader with 11+ years of experience driving **Finance, Supply Chain, and Digital Transformations** for global Fortune 500 organizations. Recognized for delivering **$1.5M+ in cost savings** and double-digit efficiency gains by leveraging **Lean Six Sigma** methodology. Expert in partnering with CXOs to solve critical business problems through systematic, data-driven strategies.

CORE COMPETENCIES

- **Strategy & Consulting:** Business & Digital Transformation, Management Consulting, Change Management.
- **Process Excellence:** Lean Six Sigma Black Belt, Business Process Re-engineering (BPR), Operational Excellence.
- **Program Management:** Agile & Waterfall Methodologies, Strategic Execution, Annual Operating Plans (AOP).
- **Data Analytics:** Power BI, Tableau, Advanced Excel, Data Flow/Transform Modelling.
- **Specialized Expertise:** Supply Chain Optimization, B2B Strategy, Finance Transformation (AP/P2P, AR), Automation.

PROFESSIONAL EXPERIENCE

Practus Advisors | Assistant Vice President (Engagement Leader) | Dec 2024 – Jul 2025

(*On Career Break from Jul'25 – Jan'26) due to Health issues. Currently available to join immediately*)

- **Engagement Leadership:** Spearheaded large-scale Finance, Procurement, and Operations transformations for Fortune 500 clients.
- **P2P Optimization:** Implemented robust AP and P2P frameworks, boosting invoice processing efficiency and optimizing Days Payable Outstanding (DPO).
- **Strategic Analytics:** Developed automated Power BI dashboards to enhance CFO visibility into vendor performance, PO compliance, and AP aging.
- **Standardization:** Delivered cost efficiencies through comprehensive SOP redesign and Enterprise Process Transformation.

Genpact | Senior Manager – Lean Digital Transformation | Aug 2022 – Dec 2024

- **Global Transformation:** Directed Finance Transformation across 13 geographies for a premier insurance client, realizing **$921K in savings** and a **19 FTE benefit**.
- **Process Efficiency:** Automated import supplier exception management, achieving a **90% improvement** in operational efficiency.
- **Financial Impact:** Led AP Disputes optimization, reducing cycle times and errors to deliver **$0.5M in savings**.
- **Leadership & Mentoring:** Mentored 15+ Green Belts and led 3 high-impact Black Belt projects to foster a culture of continuous improvement.

Reliance Retail Limited | **Manager – Process Design & Strategy (B2B)** | **Sep 2020 – Jul 2022**

- **Strategic Partnership:** Partnered with **Bain & Co.** to transition to a Regional Supply Chain model, driving significant cost-to-serve reductions.
- **Operational Excellence:** Built the B2B Process Excellence team and redesigned the Seller Settlement process, reducing the cycle from **6 months to 30 days**.
- **Supply Chain Resilience:** Reduced product returns by 5% in 3 months via root cause analysis and automated monitoring processes.
- **Project Leadership:** Orchestrated the B2B Stock Liquidation process and "Next Day Delivery" initiative, achieving 82% on-time shipments.

OYO | **Assistant Manager – International Operations Excellence (SEAME)** | **Sep 2019 – Jan 2020**

- **Market Expansion:** Managed operational metrics across 7 countries in SEAME, owning the functional Annual Operating Plan (AOP).
- **Customer Experience:** Spearheaded the "Malaysia NPS" project and designed the "OYO Thanks Campaign," scaling it from regional to national implementation.
- **Cross-Functional Synergy:** Collaborated with Product and Technology teams to build features aligned with market trends and customer requirements.

Nestlé India Limited | **Executive – Process Optimization (Supply Chain)** | **Jul 2018 – Sep 2019**

- **Loss Mitigation:** Led the "Returns & Refusals" project for South Asia (India & Sri Lanka), cutting volume and value of returns within 3 months.
- **Process Transparency:** Established performance KPIs and service plans for O2C teams, promoting integrated NCE measures.
- **Innovation:** Recognized for leading one of the most well-managed supply chain projects in the organization.

Swiggy | **Manager II – Centre of Excellence** | **Jan 2017 – Jun 2018**

- **Performance Turnaround:** Elevated Bengaluru operations to 2nd best city nationally, improving vendor management metrics from 84% to 93% within 2 months.
- **Workflow Design:** Redesigned business operational flows at all levels (Sub-process to Task) and reduced delivery TAT from 45 to 30 minutes.
- **Rapid Growth:** Promoted within 9 months for delivering 100% results on central projects directly with the Director.

Blinkit | **Deputy Manager – Operations Excellence** | **May 2015 – Nov 2016**

- **Scale & Expansion:** Managed operations across 16 cities and spearheaded national expansion into major hubs like Chennai and Hyderabad.
- **Leadership:** Promoted twice in one year for building and managing high-performing teams and establishing benchmark promotional processes.

CERTIFICATIONS & EDUCATION

- **Lean Six Sigma Black Belt:** Exemplar Global (2024).
- **Project Management Certification:** IIT Delhi (2021).
- **Lean Six Sigma Green Belt:** VarSigma Consulting (2018).
- **Bachelor of Computer Applications:** BIT Mesra (2011) | First Class with Distinction.

KEY ACHIEVEMENTS

- **Equity Award:** Granted ESOPs worth INR 1 Lakh by Grofers CEO for exceptional performance.
- **Excellence Awards:** Recipient of the **Genpact Impact Award (2024)** and **Bravo Individual Award** at Reliance Retail.
- **Consistent High Performer:** Rated "Exceeded Expectations" and "Highest A-Star Rating" across multiple roles.

PROJECT DETAILS (Out of 25+ project, sharing a few below):

1. **Bolttech (Insurance Fintech) – AP & AR Transformation**

   Situation: Bolttech was facing high invoice cycle times, dispute leakages, and limited visibility into AP/AR aging across 18 geographies.

   Task: Lead AP (P2P) and AR transformation to improve working capital, reduce disputes, and standardize global finance processes.

   Action:

- Redesigned end-to-end P2P & O2C workflows with clear control checkpoints
- Implemented dispute tracking dashboards (Power BI) for real-time aging visibility
- Automated supplier exception management
- Defined SLA-driven governance framework across regions
- Worked with global and regional CFOs as well as CTO for project alignment, results and execution.

   Result:

- Improved invoice processing efficiency significantly reducing human induced errors from 30% errors to 10% errors in a matter of 3 months.
- Reduced dispute cycle time from 14 days to a week
- Delivered measurable cost savings and optimized DPO from 60 to 45 days average
- Strengthened working capital governance across geographies

2. Reliance Retail – B2B Supply Chain Transformation (Fintech-Linked Working Capital Impact)

Situation:
Seller settlement cycles were ~6 months, causing working capital strain and vendor dissatisfaction in a large B2B ecosystem.

Task:
Redesign settlement process and build a scalable regional supply chain model to reduce cost-to-serve and improve cash flow velocity.

Action:

- Built B2B Process Excellence function from scratch
- Re-engineered Seller Settlement process with automated validation & reconciliation checkpoints via integrated seller app.
- Partnered with stakeholders to implement regional warehouse model to cut delivery timelines and multiple WH costs.
- Introduced KPI-based monitoring for returns and liquidation via central R&R dashboard.

Result:

- Reduced settlement cycle from 6 months to 30 days
- Improved vendor confidence and cash velocity
- Reduced product returns by 11% in 3 months
- Improved on-time shipment performance to 82%

3. Walmart – Store Disputes Automation (Finance Ops Digitization)

Situation:

Manual store dispute handling (AP-related) led to long resolution cycles, reconciliation gaps, and high operational costs.

Task: Automate store disputes workflow and create a control-based resolution framework to improve finance accuracy and efficiency.

Action:

- Mapped end-to-end dispute lifecycle and identified root causes
- Built automated exception management and categorization logic
- Implemented control dashboards for dispute aging and error tracking
- Established governance model with SLA-driven ownership
- Worked on upstream fixes at Walmart's end to proactively identify vendors who need not be charged under specific claim codes via HHD scanners.

Result:

- Reduced dispute cycle time significantly
- Improved reconciliation accuracy and vendor experience.
- Delivered ~$0.5M in savings
- Achieved substantial FTE productivity gains
