PROFESSIONAL SUMMARY

AI/ML Engineer with 2 years of experience in building and deploying ML and AI solutions. Proficient in Python, SQL, and machine learning algorithms, with expertise in EDA, feature engineering, NLP, and scalable deployment using FastAPI and Docker.

EDUCATION

Rajasthan Institute of Engineering And Technology, Jaipur **2017 – 2021**
B.Tech - Computer Science and Engineering - ***CGPA - 7.5*** *Jaipur, Rajasthan*

TECHNICAL SKILLS

Programming Languages: Python, R, SQL, HTML, C++
Technologies & Tools: Machine Learning, Artificial Intelligence, Generative AI, LLMs, Retrieval-Augmented Generation(RAG), NLP, Excel, Tableau, Flask, FastAPI, Docker
Libraries & Tools: Pandas, NumPy, Matplotlib, Seaborn, NLTK, Plotly

WORK EXPERIENCE

VaaaN Infra Pvt Ltd **12/2022 – 05/2024**
R & D Engineer - Data Science *Delhi,NCR*

- Built a traffic forecasting model using time series to optimize toll operations, and predict revenue across major highways.
- Developed a real-time toll operations monitoring and alert system to detect high traffic flow and violations, improving incident response and operational transparency.
- Deployed responsive web applications using Python (Flask, FastAPI), Docker, and CI/CD pipelines; visualized insights with Plotly and Seaborn for stakeholder dashboards.
- Monitored production deployments with Grafana and Prometheus, ensuring uptime and seamless system performance across environments.

AiVariant **12/2021 – 06/2022**
Data Science Project Intern *Bengaluru*

- Built predictive and decision models using machine learning algorithms for various business cases, achieving up to 90% accuracy.
- Built Machine Learning Models in python Worked on Various Python Libraries Including NumPy, MatplotLib, Pandas, Seaborn, Scikit-Learn, NLTK and many Others.
- End-to-End deployment of ML and NLP solutions on web-based frameworks like flask, streamlit.

PROJECTS

Medical Chatbot (RAG Powered AI Assistant) | LangChain, Hugging Face, FAISS, Groq

- Built an AI-powered medical chatbot that answers health questions by retrieving information from medical PDFs using vector search and embeddings.
- Combined Groq's fast LLMs with LangChain and Streamlit to create an interactive chat interface with reliable, source-backed answers.

GenAI Cold Email Generator | LangChain, Llama, GenAI

- An end-to-end AI-powered cold email generator using open-source tools to automate personalized cold email creation for business development.
- Integrates Llama 3.1 (LLM), Chroma DB (vector database), LangChain (LLM framework), and Streamlit (web app) for seamless automation.

CERTIFICATIONS

- Data Science Training Certification - **EXCELR SOLUTIONS**
- Generative AI With LLMs - **COURSERA**
- Machine Learning With Python - **IBM**
- Generative AI Fundamentals - **DATABRICKS**
