Objective

ERP Functional Consultant with 5 years of experience (4 years ERP/HRMS) in requirement gathering, business process mapping, configuration, UAT, and post–go-live support. Skilled in SQL, data validation, workflow setup, HRMS/Payroll, DIGIGOV, and INFOR ERP. Strong client handling, documentation, and delivery ownership with experience supporting government and enterprise projects.

Experience

- **Tata consultancy services (TCS)** 2022 -
  IT Consultant (ERP/HRMS-Payroll)
  - Led end-to-end ERP/HRMS implementations including requirement gathering, GAP analysis, configuration, UAT, and post–go-live support.
  - Implemented HRMS & Payroll integrated with INFOR ERP for large clients such as Goa Shipyard Limited (GSL) and Kannur International Airport.
  - Conducted requirement workshops, created SRS/FRS/BRD, and aligned HR, Payroll, and Finance processes with ERP standards.
  - Managed SaaS-based HRMS implementations: master data setup, workflows, role-based access, and form customizations.
  - Executed UAT for 1500+ users, coordinated defect triaging, and ensured smooth sign-off.
  - Performed SQL-based data validation, payroll verification, and report preparation in PostgreSQL/MySQL.
  - Handled environment migration using WinSCP & PuTTY from UAT → Pre-Prod → Production.
  - Provided user training, created user manuals, and supported production incidents to improve system performance and adoption.
  - Improved HRMS service delivery by resolving recurring issues and implementing enhancement requests.
- **Stumpp Schuele and Somappa Springs Pvt Ltd** 2020 - 2022
  Junior engineer R&D
  - Coordinated with OEM clients for suspension component design & testing.
  - Handled requirement validation, documentation, and customer communication.

Education

- **Reva university Bengaluru** 2017 - 2020
  B-Tech Mechanical

Skills
