Power BI Developer · Business Intelligence Analyst · Data Analyst

Professional Summary

Results-driven **Power BI Developer & Data Analyst** with **5+ years of experience** delivering enterprise-grade BI solutions across logistics, shipping, and e-commerce domains. Expert in Advanced DAX, Power Query (M), Semantic Data Modeling, Microsoft Fabric (Lakehouse/Dataflow Gen2), Row-Level Security, and Power BI Service & Gateway management. Proven track record of **reducing dashboard refresh times by 40%**, saving **15+ hours/week of manual reporting**, and connecting Power BI to diverse data sources including SQL databases, APIs, and cloud services for real-time analytics. Adept at Azure-based data services, ETL pipeline design, SQL, and cross-functional stakeholder management. Seeking a challenging Power BI / BI Developer role to deliver scalable, high-impact analytics solutions.

Technical Skills

BI & Visualization: Power BI (Advanced), Power BI Service, Report Builder, Power BI Gateway, Data Visualization Best Practices

Data Modeling: Semantic Data Modeling, Advanced DAX, Performance Tuning, Query Optimization, Power Pivot

ETL & Transformation: Power Query (M), Dataflow Gen1/Gen2 (Fabric), SSIS,SSRS Azure Data Factory, Databricks (Foundational)

Databases & Querying: SQL (Intermediate), MySQL, Azure Synapse (Foundational), SSMS, Data Cleaning & Validation

Automation & Governance: Power Automate, Co-Pilot Studio, Microsoft Purview, Deployment Pipelines, RLS, Workspace Access Control, UAT Support

Tools & Productivity: GitHub Integration, Excel (Advanced), Jira, Microsoft Copilot, ChatGPT, Claude, Gemini (DAX/SQL refinement), SharePoint

Professional Experience

Data Analyst-Power BI Developer Jul 2025 – Aug 2025
Super Applets India Pvt. Ltd. *Mumbai (Remote)*

- Designed and delivered end-to-end **restaurant analytics solution** — from requirement gathering to data modeling and dashboard deployment with version control in Power BI Service.
- Transformed Excel-based reporting into **interactive Power BI dashboards**; connected Power BI to REST APIs and web-based data sources for real-time data ingestion.
- Configured Power BI Gateway for secure data refresh, improving outlet performance visibility.
- Optimized data models using DAX and Power Query, improving **report performance and forecast data accuracy**.

Senior Data Analyst — Power BI Aug 2022 – Jul 2025
S5 Agency World India Limited *Mumbai (Remote)*

- Designed and maintained **20+ enterprise Power BI dashboards** supporting logistics & shipping operations; administered all reports via Power BI Service workspace.
- Architected optimized semantic data models and ETL pipelines using Advanced DAX & Power Query (M), **reducing dashboard refresh times by 40%**.
- Implemented RLS, Power BI Gateway configurations, and workspace access controls to ensure data governance for sensitive shipping datasets.
- Built Power Automate workflows for reporting automation and alert orchestration, **saving 15+ hours of manual effort per week**.
- Wrote complex SQL queries for data extraction and validation across MySQL databases to support pipeline and reporting needs.
- Oversaw BI project timelines, translated business requirements into technical specifications, and ensured on-time delivery using Agile/Jira.
- Coached junior analysts on DAX performance tuning, Power BI best practices, and dashboard design standards.

Marketing & BI Analyst Jan 2021 – Jul 2022
Virohaa Internet Media *Asansol*

- Developed Power BI dashboards tracking **marketing KPIs, campaign performance**, and business growth metrics for 5+ clients monthly.

- Analyzed customer and campaign datasets to identify **ROI optimization opportunities**; reduced reporting time by ∼30% via Power BI and Dataflows.
- Maintained technical documentation for data models, DAX logic, and dashboard design standards.

Social Media & Data Analyst Jun 2020 – Dec 2020
Cariva Technologies *Asansol*

- Handled social media analytics for multiple clients; built Power BI visuals and automated engagement trend reporting.
- Leveraged Advanced Excel (pivot tables, VLOOKUP, Power Pivot) for pre-migration reporting and ad hoc analysis.

Analyst Intern Jan 2020 – Apr 2020
DMA India *Bangalore*

- Supported client analytics and contributed to foundational BI reporting and data visualization workflows.

Education

B.Tech — Computer Science Engineering 2019
Swami Vivekananda Institute of Engineering & Technology

Certifications & Learning

Data Analytics Bootcamp 4.0 | *Code-Basics* May 2025
Microsoft Fabric — Advanced Scenarios | *Microsoft* Ongoing
EXL-Certified BI Developer | *EXL* Feb 2022
SQL Intermediate | *HackerRank* Jun 2022
Google Data Analytics Professional | *Coursera* Jun 2021
Power Platform — Automate, Pages, Apps, SharePoint | *Microsoft* Ongoing
Data Engineering — Foundational | *Databricks & Spark* Ongoing

Key Achievements

R&R Award — Employee of the Quarter (Q2 & Q4), S5 Agency World India Limited
Reduced dashboard refresh time by 40% via DAX & Power Query optimization
Saved 15+ hours/week via Power Automate workflows for shipping reporting at S5
Redesigned 30–40 client dashboards at S5, improving data accuracy & UX
