SUMMARY OF EXPERIENCE

- An **IT & telecom** professional with more than **12 Years** rich experience in **Linux**, **DevOps/SRE**, **Application Support**, **SMSC, OTA & Bulk SMS** Technologies**.**
- I am currently a Manager at **Tata Communications Novamesh Entity**, where I've spent the last five years scaling **CPaaS solutions**. My focus is on the seamless delivery of enterprise-grade SMS, RCS, WhatsApp, and Email services, alongside implementing DarkNoc, our **AI-driven monitoring and observability platform**.
- Previously worked with **Mahindra Comviva & Valley Telegence.**

Skills

Operating Systems:	Linux: RedHat (RHEL/OEL), Debian/Ubuntu, Windows: 10/11
Telecommunication:	Messaging, OTA, IVR, SS7, ISUP, SMSC, SMPP, RCS
Programming	Shell script, AWK, SED, Python
Monitoring and analysis:	Polystar, Grafana, Zabbix, Kibana, Greylog, NewRelic, Nagios
Networking:	TCP/IP, DNS, DHCP, SMTP, FTP, SSH, Telnet, SCP
Database Servers:	MySQL, MongoDB, Redis, Elastic
Protocols:	SMTP, FTP, SSH, Telnet, SCP, TCP, UDP, SCTP etc.
DevOps tool:	Ansible, Terraform, GIT, Jenkins, Helm, ArgoCD
Containerization tool:	Kubernetes, Docker, Podman, Kubeflow
AI Tool:	Kubeflow, Ollama, MCP, Amazon Bedrock, SageMaker
Application tool:	MMT tool, tcpdump, Putty, CSG Assure, JIRA Software Postman, ServiceNow, Visual Studio code

Apr 2023 to till now — Technical Manager (Tata Communications Novamesh)

Project: Customer Interaction Suit (CIS) - CPAAS
Role: SRE/DevOps Lead
Product Description: Tata Communications CIS-CPAAS is an in-network cloud communication platform that optimizes your customer experience through a real-time, omnichannel framework. It provides businesses with Application Programming Interfaces (APIs) for integrating real-time communication features like SMS, RCS, WhatsApp, Email, and more, into their applications.

ROLES AND RESPONSIBILITIES

- Design, build, and operate scalable and reliable systems with a team of SREs & DevOps.

- Develop and implement technologies for automating, alerting, self-healing, and other environments to make them easier to maintain.
- Providing subject matter expertise to developers and engineers, as well as helping junior developers debug and troubleshoot.
- Enhance processes and workflows by monitoring, managing, and troubleshooting regular processes.
- Developing Confluence-based runbooks to guide Level 3/SRE teams in resolving production system incidents & deployments.
- Design and maintain DevOps release mechanisms for production and testing environments.
- Version, build and deploy containerized applications across all environments utilizing Jenkins, ArgoCD, EKS and Docker.
- Ensure cloud resources and software are delivered effectively through CI/CD pipelines.
- Regularly coordinate and collaborate with the Applications Development team.

Feb 2021 to Mar 2023: Technical Lead (Tata Communications)

PROJECT UNDERTAKEN:

1-Project: MMX SMSHub
Product Description: Simplify interconnection and reach across the mobile ecosystem, deliver a high-quality user experience, and monetize A2P messaging with Tata Communications' Mobile Messaging Exchange, our managed service that provides reliable, profitable A2P SMS delivery between Enterprises, OTTs, SMS aggregators and Mobile Networks.

2-Project: Engage API gateway & Campaign Manager
Product Description: It delivers customer-facing workflows for customer experience optimization, real-time on any device, any place, and any platform.

ROLES AND RESPONSIBILITIES

- Version, build and deploy containerized applications across all environments utilizing Jenkins, Ansible and Docker.
- Creating shell script for data purging, TCPdump capturing and SMTP alerting, alarm integration in Zabbix for cross functional team.
- Developing Confluence-based runbooks to guide Level 2 and Level 3 teams in resolving production system incidents & deployments
- Build visualization and Dashboards using kibana for VM resource monitoring and customer traffic watch improved.
- Coordination with cross functional teams like Routing/Service Delivery/Product Team providing them quick resolution.
- Enabled proactive monitoring in the NOC team to address platinum and enterprise customer complaints, improving support responsiveness and contributing to revenue uplift

- Helping the all functional and cross-functional teams on TCP/IP flow analysis or troubleshooting and received multiple awards from Engineering & product team for helping on chronical issues.

Apr 2016 to Feb 2021 Senior Engineer (Mahindra Comviva)

Payroll: Oct 2018 to Feb 2021
Contingent: Apr 2016 to Sep 2018

PROJECT UNDERTAKEN:

1-Project: Integrated Messaging, SMSC, SMPP, VAS,
Client: **Idea Cellular Limited**, Mumbai
Application Software -ECP Application, IM Application, DND module, MMT tool
Duration – April **2016** to July **2019**

Product Description:
Mahindra Comviva's Integrated Messaging Solution enables operators to consolidate their entire messaging infrastructure and multiple services on different messaging channels through a single consolidated window. The solution encompasses various facets of messaging from person-to-person to application-to-person and simple text messaging to multimedia messaging.
The solution adopts a flexible and unified approach to messaging services providing a greater control to operators enabling rapid service launch and increased operational efficiencies,

2-Project: Uno Messaging, SMSC, SMPP, **Engage** - Bulk Messaging,
Client: **Tata Tele-services Limited, Tata Sky**
Application Software – Content filtering Application, IM Application, DND module, Bulk Messaging, Campaign Manager, REST API gateway, Distributed Ledger Technology, MMT tool
Duration – Aug **2019** to Feb **2021**

Product Description:
Mahindra Comviva's Uno (enabled with SMSC, CP Management Module and SMS Firewall) platform offered to TTSL India is a highly scalable, virtualized, and consolidated messaging platform. The solution has inbuilt capability for performing signaling filtering, content filtering and DND scrubbing functionalities.

NGAGE MESSAGING PLATFORM: An Intelligent Omni-channel CPaaS offering that enables an enterprise entity to communicate with its customers using rich contextual cadence and deliver an enriching customer experience across the channel of their choice.

ROLES AND RESPONSIBILITIES

- Delivering the responsibilities of operations department in 24*7 with team of 7 members.
- Creating/Managing ESME Server and IM account for Aggregator (A2P messaging).
- Co-Ordination with Core teams like HLR, MSC, STP and VPN in solving the SMS and VAS related problems.

- Application Release or Patch Deployment.
- Making script, aliases and crontab for system automation
- Monitoring application, web and database server during critical issues.
- Interfacing with various team OS, DB, and Network and development team for resolution of defects or issues.
- DB maintenance job like creation of table spaces and adding/resizing data files.
- Prepare health monitoring report through scripts and logs.
- Working over ticketing tool and ensuring to solve issues as per SLA agreement per customer.
- Document preparation for projects implementation, RCA & other case studies for major/critical incidents.
- Planning of Governance calls and ticket analysis report preparation.
- Provide L1 & L2 analysis& provide all required support to L3 team to diagnose the reported/escalated issues.
- Review and execute UAT, Tracking logs, application Configuration.

March 2014 to March 2016 Technical Operation Engineer (Valley Telegence)

Client: SSTL (MTS)
Product: OTAF, IVR (OTASP), SMSC
Designation: Technical Operation Engineer

Project Description:

Over-the-air Functionality/ programming (OTAF) system will be used for both OTASP (Over the Air System Provisioning) and OTAPA (Over the Air Parameter Administration) operations. It contains the physical hardware configuration details after installation of servers along with the respective serial numbers of the components, OS and 3rd party software installed, OTAF application software, SIGTRAN connectivity of the OTAF w. r. t. the STPs, E1 and SAN connectivity details.

Responsibilities:

- Perform daily system monitoring, verifying the integrity and availability of all hardware, server resources, systems, and applications, reviewing system and application logs.
- Providing Preferred Roaming Solution dynamic pullback of Roaming subscriber using Network based Roaming Solutions
- Monitoring server hardware status through ILO utility.
- Taking Backup of database and application through CLI and GUI.
- Taking logs through tcpdump utility and CLI.
- Analyzing logs through Wireshark.
- Query resolving UPDATE, CREATE, INSERT, DELETE, SELECT in MySql.
- Interacting with clients by chat over Skype, Gtalk to the client and short out the problems.
- Involved in installing & configuring FTP server, Web server, NFS server and local YUM.

TRAINING & CERTIFICATION:

- **Red Hat Certified System Administrator (RHCSA)**
  Provider: Red Hat
  ID: 220-132-245, Aug 2022
- **AWS Solutions Architect – Associate**
  Provider: Amazon Web Services
  ID: SPQM8ZL25J4412S1, Jan 2023
- **Certified Kubernetes Administrator**
  Provider: Linux Foundation (CNCF)
  ID: LF-yfzm2n1hg8, Dec 2023
- **Oracle Cloud Infrastructure 2023 AI Certified Foundations Associate**
  Provider: Oracle
  ID: 308250652OCI23AIFCA, Jan 2024
- **Docker certified associate**
  Provider: Network Nuts
  ID: SD- 1954, Oct 2022
- **Terraform (AWS Infrastructure)**
  Provider: Skill Soft
  Cred: https://skillsoft.digitalbadges.skillsoft.com/1f2e46e6-d192-4717-b05e-bb42ee158d34
  ID: 766817, Sep 2022
- **Red Hat Certified Engineer (RHCE) in Ansible**
  Provider: Network Nuts
  ID: SD- 1954, Oct 2022

ACADEMIC BACKGROUND:

STANDARD	UNIVERSITY/ BOARD	YEAR
B-Tech (C.S.E)	Uttarakhand Technical University	2013
12th	Uttarakhand Board	2009
10th	Uttarakhand Board	2007

AWARDS & ACHIEVEMENTS

- 1st prize in Junkyard Event on Sandhaan 2011.
- 3rd prize in Yantrohan Event on Sandhaan 2012.
- Winner of Unit Level Discretionary Award for Q3 (Comviva), FY 2019-20.
- Received multiple prestigious Awards like ACE, Blue Ribbon, Xtra Mile, Bravo, Hi5 (Total 10 awards) from Engineering, DevOps, Product, MM, SA teams (Tata Communications), FY 2021-2022,

- Received multiple prestigious Awards like ACE, Blue Ribbon, Xtra Mile, Bravo, Hi5 (Total 14 awards) from Engineering, DevOps, Product, MM, SA teams (Tata Communications), FY 2022-2023,
- Received multiple prestigious Awards like Blue Ribbon, Xtra Mile, Bravo, Hi5 (Total 10 awards) from Engineering, DevOps, Product, MM, SA teams (Tata Communications), 2023-2025

HOBBIES AND INTERESTS

- Traveling, interacting with new people, watching movies and playing etc.

PERSONAL DETAILS:

Name	:	Prakash Bhatt
Father's Name	:	Mr. Amba Datt Bhatt
Mother's Name :	:	Mrs. Ambika Devi Bhatt
