CORE COMPETENCIES

- Project Planning & Execution
- Agile, Scrum & SDLC Leadership
- Requirements Gathering, BRD/FRD Documentation
- User Stories & Acceptance Criteria
- E-Commerce Solution Delivery
- High-Level Project Architecture (PHP/MERN)
- API / ERP / CRM Integrations
- Sprint Estimation (Story Points, Planning Poker, PERT)
- Sprint & Release Management
- Resource Allocation & Workflow Optimization
- Risk Assessment, Mitigation & Change Control
- Budget, Cost & Scope Management
- Stakeholder & Client Communication
- Vendor & Offshore Team Management
- Cloud Infrastructure & Deployment (AWS, Azure)
- CI/CD Pipelines (GitHub Actions, Bitbucket)
- Containerization & DevOps Basics (Docker, Nginx)
- Cloud Security, Monitoring & Cost Optimization

TOOLS & TECHNOLOGIES

- **Project Management**: Jira, Confluence, Trello, Asana, MS Teams, Notion
- **Collaboration & Communication**: Slack, Zoom, Google Workspace, Microsoft Office Suite
- **Development & Version Control**: Git, GitHub, Bitbucket, cPanel, FileZilla

Sr. WordPress Developer & Team Lead

PROFILE SUMMARY

- PMP-Certified Technical Project Manager with over 8 years of hands-on experience delivering enterprise-grade IT, Cloud, and eCommerce solutions, including 4+ years in senior leadership roles driving full-lifecycle project delivery across Agile, Scrum, and SDLC frameworks.

- Proven success in leading and collaborating with cross-functional international teams across software development, QA, UX/UI, and business analysis to architect and deliver complex digital ecosystems, including custom eCommerce platforms (Shopify Plus, WooCommerce, Custom).

- Demonstrated expertise in cloud infrastructure setup, architecture design, and environment implementation across AWS and Azure, involving server provisioning, CI/CD deployment pipelines, load balancing, auto-scaling, and security configuration for high-performance applications.

- Skilled in end-to-end delivery—from requirements workshops, BRD/FRD creation, user stories, and acceptance criteria to sprint planning, resource allocation, QA/UAT oversight, and post-launch performance optimization.

- Adept at cloud-based migration and modernization, backend optimization, and API integration, leveraging best practices to ensure scalability, security, and cost efficiency across multi-environment deployments.

- Experienced in managing offshore and vendor teams, driving process automation, and implementing risk-aware project governance that enhances efficiency, budget accuracy, and stakeholder confidence.

- Recognized for fostering a collaborative and high-performance culture while maintaining strict adherence to quality assurance, compliance, and documentation standards throughout the project lifecycle.

TOOLS & TECHNOLOGIES

- **E-Commerce Platforms**: Shopify Plus, WooCommerce, WordPress, Wix, Squarespace
- **Backend Technologies**: PHP, MySQL, REST APIs
- **Frontend Technologies**: HTML, CSS, JavaScript, jQuery, Bootstrap
- **Integrations**: ERP/CRM, Payment Gateways, Third-Party APIs, Zapier
- **Cloud & Hosting**:
  - AWS (EC2, S3, RDS, CloudFront, IAM, Route 53)
  - Azure (App Services, Virtual Machines, Blob Storage, Azure DevOps)
  - **CI/CD:** GitHub Actions, Bitbucket Pipelines
  - Docker, Nginx, Cloudflare
- **Testing & QA**: Manual Testing,

- **Post Graduate Program in Project Management(PMP)**
  IIT Roorkee & Simplilearn, 2025 | View Certificate
  (Agile, Scrum, Risk Management, Stakeholder Communication, PMI Standards)

EDUCATION

- **B.Tech, Electronics & Communication Engineering**
  Dr. M.G.R Educational & Research Institute, Chennai | 2012 – 2016

PROFESSIONAL EXPERIENCE

PROJECT LEAD
Hubtec Digital India Pvt. Ltd. (Subsidiary of ThinkTech Software Inc., Canada)
Apr 2024 – Mar 2025, Lucknow (Remote with Canada)

- Owned end-to-end technical project lifecycle for multiple concurrent eCommerce , WebApp and IT projects, from client onboarding requirement workshops, BRD/FRD creation, and user story documentation to sprint planning, execution, QA/UAT, and handover.
- Partnered with international clients to define project scope, objectives, and success criteria, maintaining 95%+ satisfaction through proactive stakeholder engagement and transparent reporting.
- Directed and mentored a cross-functional team of 15 members (Developers, QA Engineers, UX/UI Designers, DevOps), distributed across India and Canada, ensuring high delivery velocity, quality standards, and consistent on-time execution.
- Designed and deployed cloud-based environments on AWS and Azure for custom eCommerce projects, including server setup, domain configuration, CI/CD deployment, and performance optimization to ensure secure and scalable delivery.
- Collaborated with Canadian teams to architect cloud infrastructure and implement environment automation, improving deployment speed, uptime reliability, and overall project efficiency.
- Balanced multiple high-priority, high-value projects simultaneously while consistently maintaining quality, scope, and schedule adherence.
- Mentored Indian and Canadian team members, introducing Agile best practices that improved project delivery speed by 20% and achieved early completion of critical deliverables.

PROJECT LEAD
Hexile Services Pvt. Ltd. | Apr 2023 – Mar 2024, Noida

- Led delivery of 8+ IT and digital projects, managing scope, schedules, and cross-functional teams to ensure seamless execution.
- Enhanced client satisfaction by 25% through structured communication practices, including weekly progress demos and transparent status reporting.
- Applied Kanban methodology and risk-aware sprint planning, accelerating development cycles by 20% and achieving project completion two weeks ahead of deadlines.
- Established audit-ready documentation standards (Confluence), improving compliance readiness and reducing post-launch support queries by 40%.
- Created KPI reports and executive dashboards for leadership, aligning stakeholders on project health and progress.

TEAM LEAD
Moshi Moshi Communications
Dec 2022 – Apr 2023, Bangalore

- Delivered 5+ platforms with zero critical defects by owning QA processes and cross-functional collaboration.
- Executive Reporting: Created Jira-based dashboards for leadership, tracking budget/timeline risks with 98% accuracy.

SENIOR DEVELOPER
Inspiria Knowledge Campus, Siliguri
May 2021 – Dec 2022, Siliguri

- Built and launched 3 educational portals with student management features, achieving 40% faster load times via backend optimization.
- Coordinated requirements with academic stakeholders, ensuring project alignment with institutional goals.

WEB DEVELOPER
SMV Infotech Pvt. Ltd., Patna
2017 – 2020, Patna

- Developed and maintained responsive websites with a focus on performance, usability, and cross-browser compatibility.
- Applied on-page SEO techniques and technical enhancements to improve website visibility and user engagement.

KEY PROJECTS & ACHIEVEMENTS

- **Alt Vape (E-Commerce, Canada):** Directed the full lifecycle creation of a new eCommerce platform, leading a cross-functional team (Dev, QA, UX, Compliance) through conceptualization, agile sprints, launch, and post-live optimization. Implemented advanced age-verification (Patroscan) and compliance frameworks to meet strict regulatory standards, ensuring 100% audit readiness and a secure customer journey.
- **Amborella (E-Commerce):** Spearheaded the redesign and seamless migration of over 10,000 product SKUs to a modernized platform, delivering enhanced user experience, improved navigation, and driving a 40% increase in digital customer engagement.
- **LNG Canada:** Orchestrated a critical zero-downtime migration of a major eCommerce site, achieving a 50% increase in page load performance while upholding audit-approved compliance documentation and business continuity requirements.
- **Titanium Energy Services**: Developed and deployed a highly secure employee portal with robust role-based access controls, streamlining HR workflows, driving adoption, and improving operational efficiency by 35% for the client.
