G-Block,Sec-20, Noida, 201301 | prakharsrivastava80212@gmail.com | +91 9389182019

EDUCATION

B.Tech in Computer Science, GLA University, Mathura
Intermediate, Mata Kasturi Devi Public School, Delhi
High School, St. Peter's College, Agra

INTERNSHIP

AI/ML Intern, SynapseIndia Software Company, Noida, Uttar Pradesh
• Worked on real-world AI/ML projects using Python, Genai, RAG, Openai and deep learning frameworks.

Working EXPERIENCE

AI/ML Python Developer, SynapseIndia Software Company, Noida, Uttar Pradesh
• Worked as a Python Developer, where I handled backend development as well as AI/ML, Generative AI, RAG-based, and LLM-driven projects. In addition, I contributed to frontend development using React.js and Tailwind CSS.

PROJECTS

ArchivAI Smart Bot – AI-powered assistant using Django, React.js, PostgreSQL, Elasticsearch, and RAG with LLaMA models for context-aware, secure document retrieval.
Main Purpose: To streamline document management, enhance organizational knowledge sharing, and provide instant, accurate, and context-rich responses.
Tech Stack - Python, Django, Django REST Framework, REST APIs, RAG Architecture, LLaMA Models, LangChain,LlamaIndex, OpenAI APIs, Sentence Transformers, PostgreSQL, Redis, JWT Authentication, Azure OCR & Document Parsing, Prompt Engineering, React.js, Tailwind CSS, Axios, JWT Authentication, File Upload Handling, Chat UI, Markdown Rendering, Responsive Design.

Aware ai – It is a web platform that extracts transcripts from U.S. mayor and city council meeting videos hosted on YouTube, generates concise summaries, and allows users to chat with previously stored meeting data on their profiles
Tech Stack - Python, Django, REST APIs, LLMs, LangGraph, LangChain, YouTube API, OpenAI APIs, RAG Architecture, Vector Databases (ChromaDB), Sentence Transformers, PostgreSQL, Redis, Celery, JWT Authentication,Prompt Engineering, Semantic Search, React.js,Tailwind CSS / Material UI, React Query, Axios, JWT Authentication, Chat Interface,User Profile UI, Transcript Viewer,Responsive Design.

SKILLS

Programming Languages: Python
Frameworks: Django, Flask, React.js, Tailwind CSS
Databases: PostgreSQL

Libraries/Tools: NumPy, Pandas, Scikit-learn, Seaborn, Matplotlib, OpenCV, TensorFlow, Keras, MediaPipe, Pycaw, BeautifulSoup, Selenium, YOLO
AI/ML: LLMs (Ollama, LLaMA models), RAG, Genai, Openai
Other Tools: Git, GitHub, VS Code, Jupyter Notebook
Professional: Communication, Problem-Solving, Adaptability, Team Collaboration
