Professional Summary

ISTQB-certified Quality Engineering Leader with 10+ years of experience in Banking, Payments, and NBFC domains, including test strategy ownership, automation architecture, and team leadership. Proven track record of leading cross-functional QA teams across manual, automation, API, database, and performance testing. Strong advocate of shift-left quality, CI/CD integration, and cloud-ready testing practices. Hands-on in building scalable frameworks using Java-based automation, API validation, and test governance.

Core Competencies

- Quality Leadership & Test Strategy
- Manual, Automation, API & Integration Testing
- REST API Testing (Postman, REST Assured)
- SQL Database Validation
- Automation Framework Design (Selenium, TestNG, Maven, Cucumber)
- CI/CD Integration (Jenkins, GitLab CI, Azure DevOps)
- Git Branching Strategies
- JIRA, TestRail, Confluence, Swagger
- Shift-Left Testing & Quality Governance
- Cloud Testing Exposure & AI-based Testing Awareness

Professional Experience

QualityKiosk Technologies Pvt Ltd – Assistant Test Manager (Apr 2025 – Present)
- Lead and mentor QA engineers across manual and automation testing streams.
- Define end-to-end test strategy covering web, API, and database layers.
- Drive automation framework evolution and CI/CD integration.
- Support shift-left testing practices through early QA engagement.
- Own test planning, execution governance, defect management, and reporting.
- Collaborate with product owners, developers, and stakeholders.
- Conduct RCA and implement preventive quality controls.
- Hands-on in exploratory testing and automation scripting.

Blenheim Chalcot IT Services – Senior Test Engineer (Sept 2024 – Apr 2025)
- Performed REST API testing and validation using Postman and REST Assured.
- Executed SQL validation for backend data integrity.
- Participated in Agile ceremonies and defect triage.

Expleo Solutions – QA Lead (Dec 2021 – Sept 2024)
- Managed QA team activities across functional, automation, and API testing.
- Implemented structured test planning and release readiness validation.
- Led regression automation maintenance and CI integration.
- Supported integration testing across banking systems.
- Improved defect prevention and quality metrics.

Earlier Experience

- Crossasyst Technologies - QA Automation Engineer (Dec 2020 – Dec 2021)
- IIFL Finance Ltd - Senior Test Engineer (Sept 2018 – Dec 2020)
- Media.net - QA Engineer (Oct 2015 – Sept 2018)

Education & Certifications

M.Sc. in Information Technology
ISTQB Foundation Level & ISTQB Agile Extension
