RISHI BAKSHI

Sr. Software Engineer | Full Stack Developer | AWS Certified

+91-8847534902 | rishi.bakshi06@gmail.com | linkedin.com | Gurugram, Haryana

EXPERIENCE

Senior Full-Stack Developer

IBM India Pvt Ltd

09/2021 - Present | Gurugram, Haryana, India

- Designed and developed scalable backend services and RESTful APIs using Java Spring Boot and Node.js, supporting high-availability, cloud-native applications.
- Built and maintained modern frontend applications using React and Angular, delivering responsive, maintainable, and user-friendly interfaces
- Managed and integrated AWS services including S3, Kinesis, Rekognition, Lambda, and CloudFront to support real-time data processing, content analysis, and media workflows
- Implemented AWS Rekognition for content moderation and automated analysis within distributed backend systems
- Worked extensively with IBM Cloud Code Engine to process Cloud Object Storage (COS) bucket operations and event-driven workloads
- Implemented CI/CD pipelines using Jenkins and Docker, reducing deployment time by 50% and enabling reliable, daily production releases
- Authored comprehensive unit and functional test suites for backend and frontend modules, resulting in a 30% reduction in post-deployment defects
- Led and mentored junior developers across Angular and Node.js projects, enforcing best practices, code quality standards, and scalable design patterns
- Collaborated with product owners and cross-functional teams to document user stories, technical specifications, and feature requirements, ensuring alignment across engineering, QA, and business stakeholders

Senior Software Engineer

Trantor Pvt Ltd

04/2019 - 07/2021 | Chandigarh, India

- Developed an order fulfilment and logistic project using React and TypeScript
- Enhanced user authentication and security by implementing OAuth and JWT, securing user data across platforms
- Optimized SQL database queries, reducing load times by 20% and enhancing user experience
- Documented the technical specifications and dependencies of applications
- Actively participated in bi-weekly agile sprint planning
- Mentored three junior developers in test-driven development and pair programming practices, improving team productivity by 10%

Software Developer

Wegile Web Projects

02/2018 - 04/2019 | Mohali, Punjab, India

- Worked on a SaaS project as full stack developer in React, NodeJs and MySql
- Reducing the application load time by 25% by re-factoring inefficient code and optimizing front-end assets and making it user-friendly
- Initiated a corporate-wide code review practice, which improved code quality by 30%
- I was also part of the ACE team for the organization to help on the web services issues.

Software Developer

IT Atlantis

05/2016 - 11/2017 | Chandigarh, India

- Developed drupal cms project and managed frontend and backend resource
- Analyzing the traffic, validating and fixing the defects reported by client
- Aslo was pursuing requirement gathering, time estimation for the task and deployment

Software Engineer

Xcelence Web Solutions

07/2014 - 05/2016 | Mohali, Punjab, India

- Involved in requirement design and implementation
- Analyzing, validating and fixing the defects
- Involved in automation testing
- Worked on design and test case document preparation

EDUCATION

Master's in Business Administration

SVKM's Narsee Monjee Institute of Management Studies

06/2021 - 06/2023 | Pune, Maharashtra, India

SUMMARY

Full-Stack Engineer with 11.6+ years of experience specializing in Java (Spring Boot), Node.js, React, and Angular. Proven expertise in designing and building scalable backend services, REST APIs, and cloud-native applications. Strong experience across the MERN stack, modern frontend architectures, and server-side development, with hands-on exposure to AWS services including SQS, CloudFront, Lambda, and S3.

PROJECTS

VOD Captioning

Developed a Video on Demand (VOD) web application enabling users to browse, stream, and manage video content with a responsive and intuitive user interface. The platform integrates with cloud-based backend services to support secure video playback, metadata management, and real-time status updates. Emphasis was placed on performance optimization, scalability, and seamless user experience across devices.
Technologies: React,Typescript,Bootstrap, Material UI, Custom CSS,Redux Store,HTML5, CSS3, Javascript

Cloud Based Scheduling Platform

Designed and implemented a cloud-based scheduling system to manage time-zone aware, recurring, and DST-sensitive events. Ensured conflict detection, high availability, and reliable execution across distributed cloud services.
Technologies: Java spring boot, MySQL, GraphQL, React, NodeJs, AWS library, Microservices,GIT, Docker, Kubernetes, Helm and Travis

STT Integration

Designed and integrated a real-time speech-to-text capability using cloud-based APIs to convert audio input into accurate textual data, improving application accessibility, user engagement, and overall interaction quality. The solution was built using a scalable, event-driven architecture and integrated seamlessly with existing application workflows.
Technologies: Java Spring Boot, Node.js, React, MySQL, Event Streaming, Code Engine, Object Storage (S3-compatible), AppID Authentication, Git, Docker, Kubernetes, CI/CD (Travis CI)

KEY ACHIEVEMENTS

AWS Developer Associate
27 Feb,2025 - Credly

Mentorship Excellence Award
Awarded for dedication to mentoring junior developer, significantly boosting code quality and team performance.

SKILLS

Python | Java Spring Boot | NodeJs | React | Angular | Microservices | Docker | CI/CD | GIT | Travis | Sonarqube | MERN Stack | AWS S3 | Event Stream | SQS/SNS | Microservices | ELB | IBM Cloud - Code Engine | AWS CloudWatch | IBM AppID | Kubernetes

EDUCATION

Bachelor's in Computer Application

Sikkim Manipal Institute of Technology

06/2013 Chandigarh, India

Dimploa in Information Technology

NIIT

06/2010 - 06/2013 Chandigarh, India
