PROFILE

I'm a Junior WordPress Developer with hands-on experience in converting Figma designs into responsive web pages using HTML, CSS, JavaScript, jQuery, and Bootstrap. Familiar with building and customizing WordPress websites using Elementor Pro and Gutenberg page builder.
Able to create and manage website pages, blog posts, and newsletters through the WordPress CMS. Comfortable working with themes, basic plugins, and page layouts while following modern design and responsiveness standards. Quick learner with a strong interest in improving skills, writing clean code, and delivering user-friendly websites.
