Summary

Senior Software Engineer with 5+ years of experience in PHP (Laravel) and 8+ years in backend development. Specialized in building scalable web applications, RESTful APIs, and microservices architectures. Strong expertise in MySQL, MVC architecture, and AWS cloud deployment. Proven ability to design high-performance systems handling concurrent users and optimize application performance using caching and database tuning

Technical Skills

Programming: PHP, Python
Frameworks: Laravel, Flask, FastAPI, Django Rest framework,
Backend : REST API Development, MVC Architecture, Microservices
Frontend: HTML, CSS, Bootstrap, jQuery
Database: MySQL
Caching & Performance : Redis
Cloud & Tools: AWS (EC2, SES), GitHub, Jira

Professional Experience

Senior Software Engineer | Unicode Systems (Oct 2023 – Present)

- Developed scalable backend systems using PHP (Laravel) and Python frameworks
- Designed and implemented RESTful APIs for high-performance applications
- Integrated Redis caching, reducing processing time by 50%
- Optimized database queries and improved system performance
- Conducted code reviews and mentored developers on backend best practices
-

Full Stack Developer | Satma Technologies Pvt Ltd (Mar 2018 – Oct 2023)

- Developed enterprise applications using laravel, php and MySQL.
- Designed systems supporting 1000+ concurrent users.
- Built HR systems, financial modules, and job portals.
- Managed deployment and cloud infrastructure on AWS.

Projects

Bharat HIMS (HIMS – ERP) | Link

- **Tech Stack:** Laravel, ReactJS, MySQL, AWS
- **Methodology:** Agile.
- Designed and developed a **comprehensive Healthcare Management System (HMS)** to manage hospital operations. Ensured **data security and compliance** for sensitive healthcare information

Student Test & Ranking Portal (Pan India Assessment System)

- **Tech Stack:** Laravel, Bootstrap, MySQL, AWS
- Designed and developed a **large-scale online test platform** supporting **Pan India student assessments**
- Implemented **ranking algorithms** to calculate **All India Rank (AIR)** and **branch-level rankings**
- Ensured system scalability to handle **high concurrent users during exam and result phases**

Ticket Support System

- **Tech Stack:** Object oriented PHP, Bootstrap, MySQL, AWS

- Developed a support platform for issue tracking and resolution
- Improved issue resolution workflow and communication between teams.

Finance Portal

- **Tech Stack:** Laravel, Bootstrap, MySQL, AWS
- Developed a portal to manage all banking, load, investment instruments

Career Portal

- **Tech Stack:** Core PHP, Bootstrap, MySQL, AWS
- Built a **dual-interface platform** for candidates and management
- Enabled candidates to **apply for jobs**, while organizations could manage **recruitment, training, and screening processes**
- Designed scalable backend logic to handle multiple user roles and workflows

---

Certifications

- PGDAC (Post graduate diploma in advanced computing) : ACTS, CDAC Banglore

---

Education

- High School (X) : 62.3%
- Intermediate(XII) : 75.2 %
- Bachelor`s In Technology(Computer Science Engineering) : 63 %
