EXPERIENCE

Khelo Tech, Delhi — iOS Developer

Delhi
Nov 2024 - PRESENT

Netprophets Cyberworks Pvt. Ltd.

Noida Sec-62 — iOS Developer

Jan 2022 - Nov 2024

PROJECTS

Khelo UK

- **Developed end-to-end iOS application from scratch** using Swift and Xcode, following MVVM architecture for scalability and clean code structure.
- **Sports Slot Booking & Ticketing System:** Implemented secure **Razorpay payment gateway** for seamless online transactions, with automatic digital ticket generation containing scannable QR codes for stadium entry.
- **Integrated GluedIn SDK:** Added engaging short video & reels feature to enhance user interaction and content discovery.
- **Feature-rich & Scalable Design:** Built multiple core modules, ensuring smooth performance, robust API integrations, and a user-friendly experience.

38 NGUK

- **Designed and developed the iOS app from scratch** using Swift and Xcode, implementing MVVM architecture for clean separation of concerns and scalability.
- **Built real-time sports features** including Live Medal Tally, Team

SKILLS

Swift, UIKit, Interface Builder, Core Data, MapKit, SDK Integrations, SwiftUI, RESTful APIs, IAP, Razorpay, Gluedin, Notifications, URLSession, Git, Firebase, AWS Amplify, Figma

EDUCATION

IMS Engineering College, Ghaziabad, UP — B.Tech

Aug 2018 – Aug 2022 | 7.8 SGPA

Senior Secondary School, Allahabad, UP

Jul 2017 – Jul 2018 | 61.6%

Higher Secondary School (10), Allahabad, UP

Jul 2015 – Jul 2016 | 89.3%

LANGUAGES

English, Hindi

Previews, Match Schedules, and Detailed Sports Information.

- **Enhanced user experience by delivering accurate, up-to-the-minute updates with an intuitive and responsive UI.**

FitIndia

- **Implemented multiple key features:** Introduced live polylines on maps, push notifications, interactive charts, Firebase analytics, and seamless Google and Apple sign-in, resulting in a 45% increase in app downloads and significantly enhancing user engagement and retention.
- **40% Improvement in UI Responsiveness:** Enhanced the user interface to be more dynamic and responsive, providing a smoother and more engaging user experience.
- **25% Decrease in App Crashes:** Implemented robust error handling and optimized code, resulting in a significant reduction in app crashes and improved overall stability.

NSRS — National Sports Repository System

- **Developed Project from Scratch with Optimized UI and Integrated APIs..**
- **Integrated AWS Amplify for Liveness Detection:** Implemented AWS Amplify to check liveness and mark attendance, including creating an AWS Lambda function to invoke the Amplify backend API. Also integrated AWS Face Compare API for enhanced accuracy.

Pasco Digital —

- **Complete Development:** Developed the entire project from ground up with a solid architectural foundation.
- **UI/UX Optimization:** Designed seamless user interface with focus on user experience
- **Performance Enhancement:** Implemented image caching for improved app performance and reduced loading times.
- **API Integration:** Connected multiple APIs for comprehensive functionality and smooth data flow
