

PRIYA SHARMA

Generative AI Engineer

Gurugram, Haryana | +91 98765 43210 | priya.sharma@email.com

linkedin.com/in/priyasharma | github.com/priyasharma

PROFESSIONAL SUMMARY

Generative AI Engineer with 1+ year of experience building LLM-powered applications, document processing pipelines, RAG systems and Python APIs.

TECHNICAL SKILLS

Languages: Python, SQL, C

GenAI: LLMs, RAG, LangChain, Hugging Face, Prompt Engineering

ML/DL: Scikit-learn, TensorFlow, PyTorch

Tools: Git, GitHub, Docker, FastAPI, Redis, Qdrant, FAISS

PROFESSIONAL EXPERIENCE

Generative AI Engineer — ABC Technologies, Gurugram

July 2025 - Present

- Developed an ATS resume parser supporting PDF, DOC and DOCX formats.
- Implemented hybrid retrieval using BM25 and semantic embeddings.
- Built OCR-based document processing workflows for image-based documents.
- Created FastAPI endpoints for resume upload and structured JSON extraction.

AI/ML Intern — XYZ Solutions

January 2025 - June 2025

- Built an invoice OCR pipeline using OpenCV, Tesseract and Python.
- Designed preprocessing steps for noisy and low-quality document images.

PROJECTS

ATS Resume Parser

Hybrid resume parsing pipeline with section detection, specialized extractors, confidence scoring and structured JSON output.

Invoice OCR Extraction

OCR pipeline for extracting invoice fields from different document layouts.

EDUCATION

B.Tech — Computer Science & Engineering

Babu Banarasi Das University | 2021 - 2025 | CGPA: 7.6/10

CERTIFICATIONS

Generative AI with Large Language Models

Python for Data Science and Machine Learning
